

The Weekly Almanian

VOL. IV, NO. 29.

MONDAY, MAY 22, 1911

PER COPY 5 CENTS.

A BUSY WEEK IN BASEBALL.

Last week was a busy one for the baseball men, five complete games being played of which but one was lost. However, the losing of that one Albion put Alma in third place in the intercollegiate and shoved Albion up to second, with Olivet at the top. The other games were of less importance. Monday the Alma Highs were taken into camp in a practice game with Lindley pitching for the college. The final score was 11 to 0. Tuesday the Northern State Normal school wasted two pitchers in a useless effort at holding the Maroon and Cream, the count at the end of the game being 11 to 0. In this game Brilmyer was at last given his reward by being allowed to pitch the entire game, and how well he succeeded the score shows. He allowed but six hits. His support was almost perfect up to the ninth inning, when there was considerable juggling. Wednesday the St. Louis Highs gave Coach Grady's men another practice, with a final score of 17 to 2. Myers and Brilmyer each pitched half of this game. Thursday afternoon the squad went to Albion when they lost to the fast Albion team by a score of 9 to 7, but Saturday they walloped the Kazooites at Kalamazoo 7 to 1. A summary of the week's work is: Monday, Alma 11, High School 0; Tuesday, Alma 11, Mt. Pleasant 0; Wednesday, Alma 17, St. Louis High School 2; Friday, Alma 7, Albion 9; and Saturday, Alma 7, Kalamazoo 1.

The game with Mt. Pleasant was an excellent exhibition of baseball. After the numerous disasters of the week before, Coach Grady decided upon a sweeping change in the line up. Dakin was taken in from first and the pitcher's box and used behind the bat. Not that Dakin's work in the box was not satisfactory, but he is of more service with the big mitt and the powerful wing. He snapped the ball down to second in great style and will see to it that few opponents get to second without a right to. But the change that did the spectators good was to see Brilmyer working like a veteran in the box. "Shinola" has been working hard for two years, but hitherto has not been given an opportunity to show his metal in a game that counted. The youngster held the Normal sluggers to six scattered hits and aided by good support prevented their scoring. Outside of the general swat-fest of the Maroon and Cream by which they forced McNamara to give way to Raymond in the sixth inning, and the good fielding the game was not spectacular. Rogers robbed a Normalite of a hit in the ninth when he grabbed a pop fly bare-handed.

Richarns, r	4	0	0	0	0	0
McNamara, p	2	0	0	0	0	0
Raymond p	2	0	1	0	0	0

Two base hits, Myers. Dakin: three-base hits, Hoolihan, Crandell; base on balls, off Brilmyer 2, off McNamara 5, off Raymond 2; struck out by Brilmyer 6, by McNamara 4; umpire Ellsworth.

Friday at Albion Alma lost 9 to 7. Meyers started pitching but the Methodists chased him from the slab in the first inning. Brilmyer replaced him and played good ball for four innings when he lost control and Myers had to relieve him again. Dakin was the star at bat, getting a double and a triple. Call and Brilmyer both got two hits in four times at bat. The Maroon scored one in the third by Funk's error, and in the fifth Funk lost his head and threw a bingle of Call's to first, instead of placing the sphere to Lee, where he could have shut out two runs. In the seventh Dakin landed on Emmons for a three-bagger, scoring Brilmyer and Rogers.

Albion played the best game of the season and the fielding was excellent. In the fifth Brown scored second on Funk's single, Lee on an error and Funk by a wild pitch. He landed two in the seventh and one by an error in the eighth. Score:

Alma—	AB	R	H	O	A	E

Totals	27	9	11	27	15	5

Three-base hits—Dakin, Rogers. Two-base hit—Dakin. Double plays—Dickie, Brown, Footit. Bases on balls—Off Emmons, 5; off Myers, 2; off Brilmyer, 2. Struck out—By Emmons, 5; by Myers, 3; by Brilmyer, 2.

At Kalamazoo the outcome was happier, the Maroon winning 7 to 1. Brilmyer started but an error by Pohly and two walks filled the bases. Grady hooked him and Myers pulled out of the hole by two strike-outs and an infield out. In the first, two walks and an error put three men on for Alma; another pass forced Rogers in. But in the second there was a pretty ascension resulting in five runs. Another was scored in the sixth when Brilmyer hit safely, stole second and came in on an error. Kalamazoo scored their run because of a scratch hit by Butler. A bouncer struck a

THE 1910-11 CATALOG.

The 1910-11 catalog of Alma College was issued last week. The catalog resembles former editions in general style and make-up and except for the date might not, from the cover, be distinguished from that of other years. But on the inside there is information which will readily set this catalog in a class by itself. The information of chief importance, perhaps, at least to the statistically inclined, will be found in the summary following. This shows that the first time in its history Alma has reached up to and exceeded the three hundred mark. This is the standard set some time ago by Dr. Bruske, and now that it is reached, he has decreed that there shall henceforth be one day of the year for a distinctly "College Day." That day has already been celebrated this year. He has also decreed that four hundred is now to be our standard. But the summary:

The College	139
The Academy	29
The Commercial School	22
The School of Music	129
The School of Art	32
Counted twice	49
Total	302

Next in importance, and as far as curriculum is concerned, first is the fact that no commercial department appears, but instead a professorship of psychology and pedagogy has been added. Geo. B. Randells, '00, has been chosen to fill this office. This will add very materially to the strength of the courses along all lines of pedagogy, psychology, political science and history as it will give Professor Mitchell all his time and attention for the latter branches.

The roster of professors and instructors shows a faculty list of twenty-six, with four student instructors for the academy. Those students doing academy instructing in connection with their regular college work are: Ernest W. Sebring, '12, instructor in physics; Robert Von Thurn, '11, instructor in Latin; Gail E. Peacock, '12, instructor in chemistry, and Wade L. Frost, '12, instructor in physiography and botany. Besides the students from Michigan, the catalog shows students from Japan and Scotland, and from Montana, Illinois, New Mexico, Indiana, Wisconsin and Nebraska.

The following is given relative to the plans for beautifying the campus: "A very important conclusion was reached by the Board of Trustees at its recent meeting in February. Mr. A. B. Yeomans, landscape architect of Chicago, Ill., submitted plans in harmony with which the future adornment of the campus might be carried forward. These were reported upon by a special committee and were adopted. They contemplate three additional buildings: an auditorium, which is to be the home of the School of Music; a dormitory for young men, and another building the purpose of which is to be determined by the evo-

DR. AND MRS. BRUSKE ENTERTAIN.

Dr. and Mrs. Bruske entertained the senior class of the college at a delightful banquet at the presidential home Tuesday evening. The evening was unique in that each of the wise owls was asked to respond to a toast of not over three minutes in length. Thirteen times three. Thirty-nine minutes of unparalleled wisdom, besides what the toastmaster had to say. No wonder the entire campus has taken on such an unusually intellectual atmosphere since Tuesday. Thirty-nine minutes of senior talk.

The entire senior class, numbering thirteen, and Mrs. Hurd Allyn Drake, who broke the spell, assembled at the Bruske home shortly after eight o'clock. After a half hour of social delight, the guest sat down to a delicious banquet of two courses. Following the refreshments, toasts were given. Each senior had been asked to speak upon some phase of college life which had been of great benefit to him. Dr. Bruske introduced Robert von Thurn as toastmaster, and he called first upon Hurd Allyn Drake, who spoke of Dr. Bruske. He told the doctor that he was the inspiration of the student body and to what a great extent the success of the college was due to his efforts. Miss Isabel Stevens, responding to the toast, "Mrs. Bruske," spoke of the motherly interest which Mrs. Bruske took in every girl that came to the college and made especial mention of the fact that upon returning to Alma after being away every old student is welcomed as a member of the Bruske household. Miss Florence Hood lauded the faculty, telling of the influence for good and inspiration that many of its members had been to her. Miss Selma Hahn, speaking on her favorite subject, the "Y. W. C. A.," showed the purpose and methods of the association in holding up the highest ideals for the girls of the college. Adelbert Lindley, in the "Y. M. C. A.," touched upon the moral benefits and the social advantages of the Christian association for men. Miss Kathleen Gillard gave one of the most brilliant toasts of the evening when she responded to "Social Life." She said among other things that the society canvas which she had had painted before her had many delightful scenes, but none more felicitous than Prexie's senior party. Miss Jean Dykes tooted the class's horn when she gave the auto-eulogistic toast, "Ourselves." In a typical senior's modest way she displayed the honors that the class had won. Miss Ethel Caey traced "Alma Spirit" from its embryonic stage in the typical freshman, who thinks that amount of spirit is betokened by degree of loudness in football rooting, through the Sophomore, who begins to think seriously of magna cum laude, the Juniors, who try to look serious, to the seniors, who really begin to have a purpose in life. Thereon Chapel spoke of the benefits of "Athletics" in moral training as well as the physical. He said that there was nothing like athletic sport for training in control of temper and thinking clearly under trying circumstances. Miss Pearl Huber eulogized the "Student Body," especially in its conduct in the chapel. Leslie Kefgen talked of "Society Spirit." Competition, he thought, was necessary in the activities of college life in college as well as between in-

WARING SURPRISES U. OF M.

Roger Waring, ex-'12, surprised the University of Michigan when he showed them a thing or two about broad jumping in their recent track meet with Syracuse. He made Champlin go 22 feet 4 inches to take first place away from the Maize and Blue. Waring is evidently another of those exponents of the can't-come-back theory, as he used to be a jumper in high school, then while in Alma failed to do anything very spectacular, but upon trying out on Ferry field makes the best of them extend themselves to the limit. The Detroit News has the following to say of "Dodger," under the caption, "Waring Will Not Have Chance to Jump Into Fame:"

"Waring, who came into prominence last Saturday, when he took second in the broad jump against Champlin of Syracuse, has lost what is probably a unique chance of jumping from obscurity into prominence.

"Almost unknown before the meet, the form he showed against Syracuse caused Kraenzlein to pick him as the one man who stood a chance of landing the broad jump at the intercollegiate for Michigan. His name was at once forwarded for entry by telegraph, but the entries had already been closed.

"Had he competed at Cambridge and won as much as one point, he would have gained the coveted letter for which many strive for four years in vain. If he would have been able to take the event he would have given Michigan a chance to shine among the leaders, a thing which, owing to the small number of stars that she will send east, is not very likely to happen this year."

AGGIES 60, OLIVET 42, ALMA 24.

M. A. C. won the annual M. A. C.-Olivet-Alma track meet held at Easting ten of her twenty-four points, while Olivet took 42 and Alma 24. Marks took the dashes for Alma in good time, the century being a close race. He was Alma's high man, getting ten of her twenty-four points. In the 440, Ayers stood a good chance lead until he tripped on a hurdle, injuring himself enough so that he was greatly handicapped in the events following. When in good shape, Kefgen can be counted upon to make a better showing than he did Saturday. In the 440, Avers stood a good chance for first but a little misjudgment on the back stretch left him behind at the finish. Harwood, running the low hurdles for the first time in his life, took third. In the half mile Caldwell just failed to place by a very narrow margin. Robert von Thurn was entered for the two-mile, for which he had not been training. He ran that

The Art of Living Right is in Buying Right

So, if you are not one of Our Customers your life will be full of disappointments until you become one

Stuckey's Independent Cash Grocery

face and then followed in the mile. The effects of the two-mile had not worn off so that he could make a showing in the mile. Summaries:

100-yard dash—Marks (A), Hill (M), Loveland (M). Time, :10 2-5.
120 high hurdles—Webber (O), Friar (M), Drew (M). Time, :17 3-5.
Shot put—Day (K), Edgerton (A), Blue (M). Distance, 38 feet 3 1/2 inches.
220 low hurdles—Webber (O), Garvey (M), Harwood (A). Time, :26 4-5.

440-yard dash—Powers (O), Hill (M), Ayres (A). Time, :53.

Two-mile run—Tillotson (M), Gieb (M), Ranson (O). Time, 10:14 4-5.

Broad jump—Osborne (O), Friar (M), Kefgen (A). Distance 21 feet 5 1/2 inches.

Half-mile—Powers (O), Chamberlain (M), Brown (M). Time, 2:08.

Hammer throw—Rider (O), Misnar (A), Gilbert (M). Distance 111 feet 1 1/2 inches.

High jump—Lord (M), Bateson (M), Kefgen (A). Distance 5 feet 6 1/4 inches.

1 mile run—Geib (M), Tillotson (M), Ranson (O). Time, 4:42 2-5. Former school records 4:43 2-5.

220-Yard dash—Marks (A), Drew (M), Osborne (O). Time, 22 3-5.

Discus throw—Blue (M), Rider (O), Amtsbeuschler (O). Distance 114 feet 2 inches. Former school record 113 feet 5 inches.

Pole vault—Kefgen (A), Rider (O), Traver (O). Height, 10 1/2 feet. Tied for first place, split the points.

SCIENCE CLUB ENTERTAINED.

Prof. MacCurdy entertained the Science Club at the last meeting for this year at his home on State street, Friday evening. Besides the active members of the club, the freshman classes in biology were invited to be present. An interesting program was given, followed by the election of officers and a delicious repast.

President Satterlee, in behalf of the club and its host, welcomed the members of the biology classes. Leon Kolvoord gave a very interesting and highly amusing talk on "Habit." Sparkles of wit gleamed every now and then in his remarks, but he presented many serious ideas of weight on habit, especially as it related to the Science Club. Mrs. Laura Sebring presented a paper on the Colorado canon. The paper was of a scientific nature, telling of the features of the canon and of its many explorers. Miss Marian Rounsifer, in a humorous paper, gave a dissertation upon "Cats." Her clever inserting of various scientific terms concerning the feline family heightened the amusement caused by the effort. Prof. MacCurdy closed the program with a word of appreciation of what the club had accomplished during the year 1910-11.

The elections of officers was conducted without a hitch, the result being that Leon Kolvoord is its president, Miss Gail Peacock its vice-president and Wade Frost its secretary and treasurer. After the business had been attended to, a delicious spread was served.

ALUMNI.

Paul J. Allured, '07, and George Horst, '08, were ordained as ministers of the gospel in the Trumbull Avenue church of Detroit, Thursday afternoon, May 11. Mr. Allured will take up his work as a missionary in China the coming fall, while Mr. Horst will become pastor of a church of over four hundred members in Philadelphia. Both were strong and

popular men in their college days and are assured of success in their chosen profession.

Joy unbounded has come into the home of Rev. and Mrs. H. G. Gaunt, Wheaton, Minnesota, with the arrival of Miss Margaret Philna, who weighs eight pounds and looks like her father. Mr. Gaunt underwent a severe operation for appendicitis the last of March and was forced to remain in St. Barnabas hospital, Minneapolis, several weeks. Now, however, he is fully recovered and with the new daughter to attract his attention, will soon forget his recent illness.

The Alpena Evening News of May 11 contains a list of the teachers of the city schools for the coming year, and among those granted increase in salary is Miss Hazel Frazer, '09, who will continue in charge of English and German at \$750 for the year.

Alex. Duncanson, '10, has accepted the superintendency of the schools of Wolverine, Mich., for the coming year. There is no question about "Sandy's" making a success of his new position. It may have slipped by the notice of followers of athletics in

Alma that "Sandy" is the only pitcher in Michigan who ever went through four years without ever being defeated by an intercollegiate college. And while establishing this record Mr. Duncanson was living up to the standards of the ideal athlete and completing a four-year course with good credits in three and one-half years. There were great sighs of relief breathed in the other colleges of Michigan when "Sandy" received his diploma.

stitutions, but that the welfare of the college should always be placed before that of society. To close, Miss Bessie Seaver spoke on "Alma's Strength," summarizing the points of the other toasts, claiming it self-defense that the speakers preceding her had stolen her thunder.

Following the toasts, the company was asked to indulge in the gentle art of writing poetry. It is a custom of Dr. Bruske to have each senior class write poetry for him, which he preserves. Questions were written and one word inscribed on a piece of paper. Then the questions and words were all mixed up and drawn. From the question and the one-word answer poetry had been written. When the great minds of the wise ones had been tried by the stunt, the evening's pleasure was brought to a close by the reluctant departure of the guests.

SOPHOMORES ENTERTAIN THE JUNIORS.

Saturday afternoon, while the rain was simply pouring down, Sophomores could be seen hurrying with great baskets of good things toward—well anywhere but the jungle. The kindergarten room proved to be the picnic grounds. Nor did protesting elements scare the guests away for one by one the Juniors made a dive from Wright Hall to the nearest possible scene of action. The refreshments, which were served in the good old-fashioned picnic style, tasted as good as if nature herself surrounded the partakers. Nor did the games, which all enjoyed, change their aspect. In a word, when the Sophomores are the entertainers the kindergarten room can be as good a picnic ground as the Jungle.

(From Our Staff Correspondent.)

Three Alma graduates recently finished their work in theological seminaries in the east. On Tuesday, May 16, Herman N. Morse, '08, graduated with high honors from Union Seminary, New York City. On the week previous Paul J. Allured, '07, and George Horst, '08, graduated from Princeton Seminary. Both Mr. Allured and Mr. Horst spent a few days last week on the campus renewing old acquaintances.

In the preliminaries for the inter-collegiate Alma lost singles to Olivet Saturday 6-0, 6-0 and doubles 6-4, 7-5. Cook played the singles and Cook and Lester von Thurn, substituting for Yonker, who was unable to go, played the doubles.

JUDGE LINDSAY LECTURES.

Judge Ben Lindsay of Denver, the well known "Kids' Judge" of the western metropolis, gave the postponed lecture of the regular lecture course Wednesday evening in the Realty opera house. Judge Lindsay's address was upon his favorite subject, children. He pointed out that "kids" in cities were incorrigible mainly because they were not understood. He told of his efforts in Denver to bring about better conditions for Young America. In spite of the sweltering weather his lecture was intensely interesting at all times.

(Continued from page one)

lution of the college. These, as well as the structures now standing, are to be surrounded by trees and shrubs, the kinds and places of which are fully designated in the plans. Hereafter all attempts at beautifying the grounds will be undertaken in harmony with these plans. By the kindness of Mrs. Francis King of this city it was made possible to secure these plans, and by a legacy of \$500 left by Clem Naldrath, also of this city, we can hope to realize them to some extent in the near future. A committee of citizens is now endeavoring to secure an endowment fund of \$5,000, the income of which is to be devoted to the beautifying of the campus. For the same purpose the College has returned to the observance of 'Arbor Day,' changing its name to that of 'College Day.' With all these forces at work it may be confidently expected that Alma will increasingly continue to be 'The College Beautiful.'

Two pages are devoted to a description of some of Alma's varied interests outside the classroom and athletics. The field is so thoroughly covered in such a complete yet concise manner that it is worthy of repetition.

"Young Men's and Young Women's Christian Associations have been maintained during the entire history of the college. The object of these associations is to promote growth in grace and Christian fellowship among their members, and aggressive Christian work, not only by and for students, but in the whole community; to train young men and women for active Christian service, and to lead them to devote their lives to Jesus Christ. To this end Bible classes, Sunday schools, and a volunteer band for mission work are maintained. Union prayer meetings are held on Wednesday evenings and separate prayer meetings on Sunday afternoons. These are well sustained and productive of great good.

"The Associations issue an annual hand-book which contains a large amount of information especially valuable to new students. On their arrival they are met, warmly welcomed, made to feel at home, and assisted in every possible way by representatives of these Associations.

"Five literary societies are in active operation: The Zeta Sigma, Alpha Theta, Phi Phi Alpha and Philomathean for College students, and the Froebel Club for members of the Kindergarten department. The Zeta Sigma and Phi Phi Alpha are conducted by the young men; the Alpha Theta, Philomathean and Froebel Club, by the young women. The aim of these societies is the development of a correct literary taste and the power of precise and ready expression.

"Alma College is a member of the Michigan Inter-Collegiate Oratorical Association, which conducts two contests annually, one for men and one for women. The college is also a member of the Alma-Hope-Olivet Debating League and of the Alma-Michigan Agricultural College League, and meets each of these colleges in debate annually. Conspicuous among the local events is the Chicago Medal contest in oratory. Gold medals are

awarded the winner of this contest and the representatives of the college in all intercollegiate oratorical and debating events. The management is under the charge of the local Oratorical Association and Debating League.

"The Classical Club is conducted by the students in the Ancient Languages under the supervision of the instructors in Greek and Latin. The aim of the Club is the promotion of an interest in classical literature and archaeology. Meetings are held twice a month during the college year.

"The Science Club was organized for general scientific research and for the study in particular of the plants, animals and geology of the region in which the College is located. Meetings are held twice a month during the college year.

"The Enterprise society is conducted by the members of the School of Music who meet at regular intervals during the college year for the study of the lives and works of the masters in music.

"Under the new plan of marking, provision is made for the recognition of excellence in scholarship through a system of honor-points corresponding to the standings received. The minimum number of honor-points required for graduation is 80; for third honor (cum laude) 140; for second honor (magna cum laude), 180; for first honor (summa cum laude), 220.

"Alma College Bulletin is published by the college four times a year, in February, May, August and November. The February issue is the College Catalogue, and the other numbers are devoted to the interests of the different schools. Copies of current issues may be obtained on application to the secretary of the college.

"The Almanian is the student publication and is issued weekly during the college year. It is conducted by a board of editors who aim to make it a faithful reflector of local college life in all its phases as well as a consistent supporter of the interests of the institution from the standpoint of the student body."

The miscellaneous gifts reported are: "Mr. A. W. Wright, for Baby Grand piano, \$500; moving same, \$3; for electric lights, blackboards, etc., \$50; for extra copies College Annual, \$25; for entertainment of Trustees while attending meetings of the Board or of the Executive Committee, \$57.50; Berry Bros., Detroit, varnish, \$150; President August F. Bruske, for printing, \$22.85; Mr. John F. Seeley, Caro, for the Oratorical Association, \$25; Mr. John W. S. Pierson, Stanton, for the Oratorical Association, \$5."

New honor scholarships are: "The Silliman and Brownell scholarships, each amounting to \$50 in tuition, are to be awarded annually to a young man and a young woman in the Junior class, of Christian character and high ideals, who have the highest scholarship records, as determined by honor points, in the studies of the Freshman and Sophomore years. These scholarships will be awarded for the first time at Commencement, 1911."

There is a great deal of other matter which is very interesting, but lack of space forbids giving more. However, catalogs may be secured of Prof. A. P. Cook, and it will be considered a special favor if readers of the Almanian will forward names of those interested in Alma or those who intend entering college next fall, so that copies of the catalog may be sent them.

THE MAROON AND CREAM.

The editorial board and business manager of the Maroon and Cream are at work upon the production. No advertising will be especially solicited from the merchants of Alma, but nevertheless space is being offered to those desiring it and many are taking advantage of the offer. A systematic campaign for subscriptions among students, faculty and alumni is being made. In large part the value of the

annual must be determined at this time by the guaranteed receipts as all the money received will be put in the book, but plans have to be made based upon the dollars that are sure to be forthcoming. Hence, it behooves every one of you, students, faculty, alumni, former students, to send in your subscription now rather than later. A limited supply will be printed so that there will be but few left after orders have been filled. Therefore, HUSTLE YOUR ORDER IN.
