SLUMP GONE, ALMA TRIMS TWO FOES

Mt. Pleasant Normal on Own Floor and Hillsdale, Here, Fall to Alma.

Playing in the most sensational form of the season with a return to form that was a big surprise to the most ardent Alma fans, the Maroon and Cream defeated the crack Mt. Pleasant Normal aggregation on the Mt. Pleasant floor Friday night, February 1, 21 to 18, and then insult was added to injury when the Alma Reserves trimmed up on Parker's Second-stringers 13 to 12. In both games Alma took the lead at the start and was never headed.

Haight and Showalter, the two star Normal forwards, who have been ringing them in with great regularity this year, were stopped, Haight late member of the American Relief slightest kind of a margin to insure getting one field basket, and Showalter being held to a single one from counter from the floor.

In this period the Normals fought desperately to pull down the Alma lead and late in the game with Van Hee in place of Wright and Welthoelder was able to use his height to good advantage in looping show and nailed four field baskets. Heubner and Sprague each dropped one in the net in this period.

The entire Alma team gave a fine display of basket ball from start to finish, and every man is deserving of great credit for the battle that they waged. SOME PLAIN FACTS

Students Denounce Bitter Article and Declare Unanimous support for Pres. Crooks.

On Wadnesday evening, February 6, about one hundred of the male students of the college assembled in an indignation meeting regarding an article appearing on that date in the 'Fiery Cross," the official publication of the Ku Klux Klan, slandering President Crooks, and making unfair accusations against him.

Previous to the meeting several of the students bought up the entire lot of the publication received in Alma. The article as stated was received with the greatest of indignation on the part of the students, the verdict being unanimous among those present. A short and very orderly discussion brought about a CONDEM-NATION OF THE ARTICLE AND THE SPIRIT IN WHICH IT WAS WRITTEN.

The whole story was denounced as being composed of base lies without the slightest foundation of truth. Several yells were given for Prexy, showing how student sentiment stood, and the college song was sung. There was no unnecessary comment on the article, no disorganized shouting, no horse-play. The affair was carried out in a dignified and effective manner.

When the fire had died out completely, the group immediately dispersed..

"A" MENS' CLUB

There have been during past years several organizations on the campus which banded together with more or less common ideals through desires more or less theoretical. Reference is here made to the various city and territorial clubs together with several scientific clubs, all of which have now been seemingly lost to Alma's social organization.

There has been throughout the school year, considerable comment on the possibilities of the formation of an "A" Club; such a club to be composed of the letter men of the college including both athletic and forensic winners. Many ideals of a social and constructive nature which are lacking on the campus could be supplied

Choice of a Career

From the Yale News

THE NINETY-FOUR

Someone, probably an insurance agent, was quoted recently as saying that from the mass of one hundred college graduates one individual only rose to the Polo and butler class, perilously near the top of the financial ladder. Five others became comfortably off and found themselves after twenty years at the small yacht and chauffeur stage. The other ninety-four presumably congregate in the great section of the American people who drive their own Buicks to the golf club. In other words, dreaming about being a rich man is one thing, and making the grade is "something else again."

Yet the ninety-four presumably work just as hard as the sumptuous six. Their business is the axis on which a small and uninteresting world revolves. They have become devotees of the dollar and when that fickle deity deserts, have nowhere else to turn. Jammed in a dull, straight rut of business they can never leave the road and jump the fence into finer fields of life. This, then, is the portion of ninety-four men out of every hundred now on the campus.

The answer to the problem lies in the proper choice of a career.

Between now and Commencement we shall have something to offer on the subject of "Careers." Watch for the space with the Famous Signature.

English philosopher and man of science. Studied at Oxford and the University of Paris. Wrote the Opus Majus, Opus Minus, Opus Tertium, and many other treatises.

For this he was sent to prison

Roger Bacon may not have invented gunpowder, as has been claimed by some biographers of the famous Franciscan friar, but he exploded some of the outstanding errors of thirteenth century thought. Because of his advanced teachings, Bacon spent many years of his life in prison.

In an age of abstract speculation he boldly asserted the mathematical basis of all the sciences. But even mathematical calculation, he showed, must be verified by experiment, which discovers truths that speculation could never reach.

In the Research Laboratories of the General Electric Company, Bacon's principles are followed in every experimental investigation. The gas-filled electric lamp and the electron tube were worked out on paper, but it was experimental verification of the underlying mathematical theory that made electric illumination, radio broadcasting and X-rays what they are today.

More than a million dollars a year is devoted to research by the General Electric Company in order that the giant electricity-may be made more and more useful to mankind.

BOB WYATT SAYS—

"Homelike or Unhomelike-What do you mean?"

Then looks over the Sunday crowd doing their stunts and problems, etc. -says: "This place should have existed in the days of the old English Coffee House? Wonder, were they homelike, or places of retreat for the poor man when his home became too 'homelike?'"

Early to bed Early to rise and You never meet any of the regular

They say brevity is the soul of wit but not of love letters.

Times Have Changed

Taxi Companies in Chicago have many drivers who are graduates of colleges and universities. Six operators for one single cab company are dectors of philosophy.

Correct this sentence-"There's nothing more delightful and invigorating," he declared, "than a nice cold shower before break.ast."

Ballad of the rum runner-"All dry agents smile on me when comin' thro the rye."

At a recent annual meeting of the National Council of Teachers, held in Detroit, about 200 members were in attendance. Thomas C. Blaisdell, former President of Alma College and now Prof. of the teaching of English in the State Normal School at Slippery Rock, Pennsylvania, was elected President for the coming

A NEW YEAR'S RESOLUTION

Thirty Freshmen Started in a race, Ten dropped out, Couldn't stand the pace. That left twenty Sophomores bold, But five gave up, Ambition grew cold. So the fifteen Juniors Struggled right along, 'Till five more took "Count ten" on the gong. The ten lone Seniors, Victors of the fray, Received their laurels On graduation day. Enough Said!

LOOK-PATERSON DRUG STORE

Next Spring-

With over 200,000 orders for Ford Cars and Trucks already placed for delivery during the next few months, we are facing a recordbreaking spring demand.

Each successive month this winter has witnessed a growth in sales far surpassing that of any previous winter season. This increase will be even greater during the spring months, always the heaviest buying period.

These facts suggest that you place your order early to avoid disappointment in delivery at the time desired.

Ford Motor Company

It is not necessary to pay cash for your car in order to have your name placed on the preferred delivery list. You can make a small payment down, or you can buy, if you wish, under the convenient terms of the Ford Weekly Purchase Plan.
