ALMA DOWNS KAZOO IN CLOSE GAME

TRUSTEES HOLD FALL MEETING

Dodge Physics Chair Established. Tuition Increased.

Tuesday at the annual meeting of the Board of Trustees of Alma College the John F. Dodge chair in physics was established by a vote of the board as an appreciation of the gifts to the college by Mrs. Dodge, making the second Dodge professorship at Alma College, the board previously having established the Horace E. Dodge chair of economics.

The treasurer's report given to the board was of unusual interest this year. It shows that the endowment of the college at the present time is \$560,000, and that with an expected \$90,000 within the next thirty days the endowment will reach \$650,000. Fifty thousand dollars of the \$75,000 pledge of the General Education Board of New York, and \$40,000 of the \$50,000 expected from the Carnegie Corporation comprises the \$90,000 that it is expected will be received within the next thirty days.

State Pension Fund

Fifty thousand dollars expected from the Carnegie Corporation will be made into a pension fund, and the trustees voted to co-operate with the Teachers Insurance and Annuity Association of New York, founded by Andrew Carnegie, whereby the board will pay five per cent of the salary of teachers in monthly installments, while the professors, who elect to enjoy the benefits of the plan, will pay an additional five per cent in monthly installments to create an annuity. It is understood that if a professor begins the plan at the age of 30 or 35 years by the time of retirement at 65 or 70 years he would accumulate an annuity of about half of his salary. President Crooks stated that practically all of the faculty members of the college have elected to come under the plan, which will be put into operation as soon as the money is received from the Carnegie corporation.

Tuition Is Increased

The Board of Trustees voted to increase the tuition from \$100 to \$125 per year, and in the face of rising costs of administration, empowered the officers to raise room rent and board if deemed necessary. It is understood that the board feels that those persons who are financially able should bear a larger proportionate share of the cost of education than is the case at present. The board hopes to secure an increased scholarship fund so, as to render a larger scholarship aid to those students of ability, who may need aid. Questioned as to the cost of education per student per year, to Alma College, President Crooks stated that the cost is now about \$350.00 per year.

Officers Re-elected

The officers of the Board of Trustees were re-elected for the coming year as follows: Chairman, Rev. Minot C. Morgan of Detroit; vice chairman, Professor Kendall P. Brooks of Mt. Pleasant; secretary and assistant treasurer, Albert P. Cook of Alma.

Dramatic Club Has First Meeting

The first meeting of the new Dramatic Club was held in the chapel, Wednesday evening, October 28.

Over fifty students were present and evinced a large amount of interest in the new venture. Most of the time was spent in the business of getting the new club under way.

Bertha Woodhurst was elected chairman until constitutional officers should be created. A constitutional committee and a program committee were appointed.

The next meeting will be held Wednesday night in the chapel. At this time the club will begin its work of the year.

Everybody is to be at Albion Saturday.

Model Student Is Dismissed

Gloom on the campus, college men and women and faculty di console, all the birds singing "O Dear What Can the Matter be?" Alas, Prexy had abolished our college dog, "Charlie" (named after C. Murray.) And you ask why? Just because of an appreciative affirmation to Prexy's prayer. The old and stable influence of our college chapel—the quiet shattered by a foreigner's intrusion.

Professor Hamilton claims he was attentive in class as any student, diligent in his studies, his bright eyes ever fixed on that destination of all college students—meal-time. Coach had declared him an expert tactician in football, because he could pass a miniature football and catch it before it reached terra firma. In fact all regarded him as an exceptionally bright student, but soon the axe was to fall on his innocent neck.

All was silent when suddenly his golden voice was heard looming in the distance (about four feet away.) After this outburst Charlie remained silent while studiously cultivating the back of Miss Landwehr's neck. As the saying is—Charlie liked his necking.

Professor Ewer declares that Charlie would be a valuable contribution to the college choir, his voice and Hawthorne's blending perfectly. Lee Sharrar, while being partial to cats says, "Charlie was the best behaved animal that ever visited my classes."

With all this testimony it seems hard to believe that Charlie was expelled. Prexy's parting words were brief but sincere: "Charlie, it rains me much, but it will pain you more."

GAMES THIS WEEK

The Albion-Alma game at Albion is the week's big headliner in the association, and upon the outcome will depend to a great extent Alma's title chances.

At Albion—Albion College vs Alma College.

At Hillsdale—Kalamazoo College vs Hillsdale.

At Olivet—Michigan State Normal vs Olivet College.

PHI PHI ALPHA HOLDS DANCE

Men's Society Enjoys Highly Successful Hallowe'en Party.

As a fitting celebration for the Kalamazoo victory and the Hallowe'en season, the Phi Phi Alpha Literary Society held an informal dancing party at the Elks' hall, Saturday evening. It was the first time the society had given a dance not incorporated with a banquet, but its success was so great as to warrant it being made an annual affair.

The hall was decorated with the skeletons, witches, and black cats that are supposed to come forth on Spooks' Night and the entire room was roofed over with the orange and black colors, suggestive of a riotous Hallowe'en and a mournful Kalamazoo. Between forty and fifty couples were present and a great many out of town guests were heartily enjoying the festivities as a fitting close for a great day in Alma.

After the grand March, led by President Nisbet and Mary Shroyer, whom he had chosen as his partner for the evening, the guests of the Phis were presented with novelty bottles of perfume for favors. Punch was served and ribbon confetti was widely distributed to make the affair even more merry.

A seven piece band furnished the music, the players all well known to Alma dancers: Kennedy, piano; Cole, saxophone; Boyd, trumpet; Clough, bass horn; Bennett, banjo; Johnson, violin; and Hicks, traps. With the hall of splendid size and a group of vivacious enthusiasts, the orchestra had no trouble in entering into the spirit of the party.

The faculty guests at the party were Miss Steward, Miss Landwehr, Prof. and Mrs. Hausheer, and Prof. and Mrs. Clack.

Albion College Alma's Next Foe

Alma football fans demand—what? Simply that every man on the football squad give his best to the Maroon and Cream at Albion, Saturday, November 7.

They feel certain that if the Campbellmen will do that that a victory will come to the Alma collegians, although they do realize that the battle will be hard, the going stiff, and the opposition of the keenest.

Men of Campbell! You will be outweighed at Albion! You will be playing on a foreign field! You will be playing before an Albion homecoming crowd! You will be depended upon to uphold the fine traditions of Alma fighting spirit! You will be depended upon to do just a little bit more than you have done any previous time this season!

Alma—College and Town—have confidence in your ability. Alma—College and Town depend upon you for victory.

During the past few years custom has been established to wreck homecoming games between Alma and Albion. Alma expects this year's team to be no exception to the rule of the past few years. Look'em over football men and fans.

At Alma, 1924—Albion College 3, Alma College 0, giving Albion second place.

At Albion, 1923, Albion College 0, Alma College 6, giving Alma the title.

At Alma, 1922, Albion 6, Alma 0, giving Albion the title.

It's Alma's turn. The fans will be at Albion in no uncertain way. True they will be outnumbered, but they will make themselves heard. The band will be there. And here at Alma will be hundreds of anxious fans, who realize that in this Albion game at Albion, the team is facing the stiffest fight yet to be waged in the title chase.

Footballmen! In view of this can you falter on the way? The answer rests with you. Just remember—Alma has a sublime confidence in your ability to deliver.

SCRAPPY TEAM TASTES DEFEAT

Blocked Kick in Last Period Leads to Touchdown on Confident Kazoo Team.

The Alma collegians won a grueling struggle from the Kalamazoo College football team Saturday on a heavy field, which made the going hard, and aided the heavier Kalamazoo team to stave off its first defeat until the final quarter, when Burton broke through the Kalamazoo defense to block an attempted punt, paving the way for the long touchdown and points of the game. Alma won 6 to 0.

Alma played smarter football than did the Kalamazoo team, and this in a big measure accounts for the defeat of the Celery City eleven. Added to this was the fact that the Alma line was tearing the Kalamazoo forward wall to pieces making Kalamazoo hurry her plays throughout the game. The ripping up of the Kalamazoo line was the big surprise of the fray to Kalamazoo. It had not been done before this year and to have a light Alma eleven turn the trick was a most startling happening.

Kalamazoo put up a game battle, and fought hard to stave off defeat, although outplayed during three of the four quarters. As the teams went into the final quarter Kalamazoo was faced, however, with a team that was determined to win, and forced constantly back upon her own goal, the chances are that Alma would have counted even had not Burton made the great and brilliant performance that he did in blocking Black's punt and recovering it one short yard from the Kalamazoo goal.

Captain Anderson also played a wonderful game on the line. He was a great factor in the Alma victory. Late in the game he suffered a slight injury, which caused Coach Campbell to pull him, to make certain that "Cap Andy" was going to be ready for Albion this week. The valiant Alma captain's services are going to be badly needed then. The team and fans depend upon him. He goal. The chances are that Alma could not afford to lose the All M. I. A. A. tackle.

Kazoo Kicked Off

Kazoo kicked off to start the trouble and Alma returned the kick (Continued on page 4)

Bentley Succumbs To Arrow Wounds

Coming as a distinct shock to his Alma friends, admirers, and well-wishers, was the news Saturday that Frank Bentley, '25, Alma's track star the past few years, had fallen a victim to Cupid's darts.

The announcement was tremendously startling because the victim was considered to be specially armored against any sharp shooters among the more deadly of the species. For four years Bentley had graced the Alma campus with never a campaign against Wright Hall, never a peep into a college dance, never an attendance at a banquet with the opposing camp represented. Four years of protective training, his ultimate aim, a bachelor's degree. This secured he was to be forever entrenched. His whole collegiate philosophy had been developed until it became one of mere tolerance for Eve's daughters, if not entirely that of a misogynist.

And so the news was at first laughed down by our hero's intimates. But the herald was none other than Ross Leonard Calkins, Bentley's college chum. The wedding took place at the home of Calk (who was himself but lately lost) and we must accept the news as fact.

The successful nutress was Miss Georgia White of St. Louis. It is expected that the young couple will be a great asset among the pedagogues at Sandusky.

Everybody is to be at Albion Saturday.

ALBION 1925

At this time of the year we always bring up that glorious day a couple of seasons ago when the entire Alma College and most of the town journeyed to Albion to ruin a homecoming and attach a state championship. There never was such a day before and there never has been one since. Those students in Alma to-day who have never participated in an all-college exodus cannot appreciate the pleasure that it affords. Ask any of the older students, they all made the trip.

We still live it over. What great sport it was to burst into some town like St. Johns, Lansing or Eaton Rapids—way down the line—and find a dozen or so Maroon and Cream decked cars already there astonishing the natives with their sport! Or to spin along the road and catch up to some Alma pedestrian and stick him on the spare and whirl him along! And after this was done—remember how we all gathered in front of the Albion House? And then we paraded to the field with Bob Wyatt leading us in "We Want—We Want—We Want the Championship!" And after the game—we still throw our hats in the air when we recall that—remember how we went back to town? The band led, hats on backwards, playing "There'll Be a Hot Time in the Old Town To-Night!" And the rest of us eight abreast, snake dancing past the Albion frat houses—all decorated for homecoming—shouting "We've Got—We've Got—We've Got the Championship!" And remember how we all went back to Lansing to make a bon-fire out of the Capitol only it was an Alma victory and not one for M. A. C. so the governor wouldn't let us do it?

SATURDAY

Saturday comes our chance to live it all over again. Four years ago Albion came up here and spoiled our homecoming. Then the next year we went down there and put an awful crimp in theirs. And last year they up and took the edge off ours again. Saturday Albion has another homecoming. AND IT'S UP TO US TO GET EVEN! The team and the band are all set to go. The rest of us want to get busy. The bums (bless 'em) will be the first to start out. And Saturday morning every available car needs to be ready to take a load. All the busses in Gratiot County are ready to take us at reduced rates—just so the drivers can be there. Pioneer Hall, Zeta House, Phi House, Monastery, Mrs. Mac's, Wright Hall—all of them—will hold a big reunion at Albion Saturday.

Let's See Everyone There!

ARE STUDENTS LAZY?

When we stop and think of college students as we know them and compare these individuals with those of our high school dreams, we realize that we are given credit for knowing a lot more than we really do. Outside of the folks who think of students as "thrill murderers," the laity actually holds the idea that we are beings set apart, carrying a great mass of learning, with a remarkably carefree air.

Those among student bodies who really do possess a large amount of information are very few. And the greater portion of summa cum laude graduates are those individuals who took the time to memorize all sorts of facts, went to bed late, got up early, studied in the library with thumbs pressed against their ears and were generally contemptible in the eyes of those of us who had lots more ability but refused to warp ourselves with such a program. We wonder how many honor students are really brilliant and how many who should be honor students are lazy or merely suffer from misdirected effort. William Allan Brooks in his "How to Study" seems to feel that results fail to come up to the efforts put forth in study. He has this to remark in his introductory:

"Dr. Charles W. Eliot once remarked that the most important step toward getting mental power is the acquisition of a right method of work.

"The student comes to college to acquire this mental power. Seldom does he acquire it.

"The fault lies perhaps more with the teacher than with the student.

"As we look back over our school days in college we cannot recall any effort ever being made to teach us how to study. We had to work and we went about it as best we could. With the exception of a very few how we wasted time and effort at it! How dawdled and struggled in overcoming the inertia of our minds when confronted with each new task!

"Our periodicals are constantly repeating the accusation that the majority of our students are lazy and will not study. Any one who is acquainted with the present day student will realize the falsity of this accusation.

"The student cannot be accused of sparing energy and time in making a deliberate effort to learn. He works diligently for hours copying notes, reading long assignments, writing essays and theses, attending lectures. No human being is ever as busy as the student. But the tragedy lies in the fact that his scholastic results are so seldom commensurate with his efforts. He wastes too much of his time in misdirected efforts. He does not understand the technique of study.

"In fact, even our teachers are ignorant of methods of study and they seldom stop to analyze its nature so as to be able to impart it to the student.

"This condition is regrettable.

"The period of college life is the time in which the plasticity of youth and the maturity of manhood develop. College life is the student's only life during these years. It touches him in every point and is the chief molding force during what are the most crucial years of his history. All influences received during this period are likely to be profound and lasting. The effects of bad mental habits are likely to be disastrous if carried over into his post college, professional, business, or social life.

"Without the cultivation of a right method of work he remains handicapped from the days as a student to his very last days."

Although we are prone to feel that we students are lazy and spend much less time copying notes and reading assignments than Mr. Brooks seems to think, we fully agree that we don't know how to study. Dr. Randels once startled us by stating the amount of time he felt necessary to prepare a certain philosophy lesson. It was about a quarter of the time we generally used and which brought us to class half prepared.

If Mr. Brooks can show us how to assimilate a lesson without memorizing it he is doing something which very few students have ever seemed able to do for themselves.

Doesn't look any too good for Alma, does it? Saturday we should beg'n to even things up.

IT IS REPORTED THAT:

Ski Nowiski recited in history class last week.

Sheik Couture did not make a wise crack all day Thursday.

Bob Meade arrived at a class on time last Wednesday.

Dot Tindale smiled at lunch last Tuesday.

Bill Fruyne did not speak to Helen Benson at meal time last Friday.

Nate Gealor was found with a book open Saturday night.

Homer Barlow did not comb his hair on Sunday.

(Follow this column—the most startling phenomena of each day will be recorded.)

CAMPUSOLOGY

This passage from the upperclassmen's ultimatum to the freshmen of a Missouri college is interesting, if true:

"Girls of the freshman class shall wear their stockings so that the articulation between the femur and tibia in which the patella shares shall be protected from the vicissitudes of weather and inconsistency of winds so that the male students may keep their minds on their lessons."

When the Cat's Away

Work called for and delivered.

In an isolated region, almost inaccessible in winter, this 6500 h.p. hydro-electric plant located on the Deerfield River in New England, starts, protects, and stops itself.

A Self-Starting Power Plant

Dawn—the slumbering city awakens and calls for electric current. Many miles away the call is answered. A penstock opens automatically, releasing impounded waters; a water turbine goes to work, driving a generator; and electric current is soon flowing through wires over the many miles to the city. This plant starts and runs itself.

Power plants with automatic control are now installed on isolated mountain streams. Starting and stopping, generating to a set capacity, shutting down for hot bearings and windings, gauging available water supply, they run themselves with uncanny precision.

Thus another milestone has been reached in the generation of electric power. And with present-day achievements in power transmission, electricity generated anywhere may be applied everywhere.

The non-technical graduate need not know where electricity comes from—nor even how it works. But he should know what electricity can do for him no matter what vocation he selects.

The General Electric Company has developed generating and transmitting equipment step by step with the demand for electric power. Already electricity at 220,000 volts is transmitted over a distance of 270 miles. And G-E engineers, ever looking forward, are now experimenting with voltages exceeding a million.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.

Great interest was evinced in a meeting of the strong virile, etc. men of the upper peninsula of our great commonwealth. Those present were: "Wally" Burton and F. MacDougall. Wally was elected temporary chairman. The name chosen was the "Pine Stump Buck Club," thus excluding all feminine members, as feminine companionship is not conducive to our rough and ready nature, which must be cultivated at all costs.

Officers were then elected. Only Burton and MacDougall were nominated, each securing one vote. According to Robert's Rules of Order a vote was called for the two who were in the lead. A tie again resulted so Wally was elected president. W. Burton was elected vice-president and Walter Burton secretary and treasurer.

After an intermission during which tooth paste and listerine were served, the question of secret signs and greetings was taken up. Decision was reached that one pine stump boy on meeting another pine stump boy, should rise in the air as if jumping a stump, tread air while making a noise like a stump and then float gently to the ground, lighting easily as well as gracefully on the left ear. On meeting a brother in distress a noise should be made like an exhausted needle, and the cryptic words "So's your old stump" should be repeated three times in a melancholy whisper.

Do You Know? "HOW TO STUDY"

The Students' Hand-Book of Practical Hints on the Technique of Effective Study

by
WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy, and fatigue.

ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.

Some of the Topics Covered

- Scientific Shortcuts in Effective Study.
- Preparing for Examinations.
- Writing Good Examinations.
- Brain and Digestion in Relation to Study.
- How to Take Lecture and Reading Notes.
- Advantages and Disadvantages of Cramming.
- The Athlete and His Studies.
- Diet During Athletic Training.
- How to Study Modern Languages.
- How to Study Science, Literature, etc.
- Why Go to College?
- After College What?
- Developing Concentration and Efficiency.
- etc., etc., etc., etc., etc., etc.

Why You Need This Guide

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine," Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked," Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain," Prof. G. F. Swain, M. I. T.

"To students who have never learnt "How to Study," work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment," Prof. A. Inglis, Harvard.

"HOW TO STUDY" will show you how to avoid all mis-directed effort. Get a good start and make this year a highly successful one by sending for this hand-book and guide NOW.

Albion Saturday--LET'S GO!

The newly formed society then went on record as heartily endorsing the Act of Kongress which reads: "Man and his environment are the products of our civilization and we must do all in our power to exclude red hens from overrunning our chicken yards." The act of the S. A. A. (Spanish Athletic Association) which reads: "A man to be eligible to the S. A. A. must have served an apprenticeship of four years in some or any recognized institution of collegiate learning" was also approved.

The executive committee then reported on athletics and plans were laid for a football team to be fostered by the society. The tentative line-up is as follows: Captain and quarterback, W. Burton; full, F. MacDougall; halves, E. Highlund and C. Macdonald; ends, the Fildy Brothers; tackles, Fowler and Hocking; guards, Closser and Thompsett. Center will undoubtedly be played by our fighting Scotchman, Don Campbell. After this the meeting adjourned to the Elite Cafe where a Dutch treat was enjoyed by all.

All challenges for football games should be sent to W. Burton.

Everybody is to be at Albion Saturday.

Council Dances

The Editor of the Almanian:—
I feel a bit backward in disturbing the tranquil routine of this scholastic year, but there is an important matter that should be brought to the attention of the students. Our august Council is planning to discontinue informal dances. Last year the "two-bit" parties were successful, and again this fall the dancers enjoyed themselves very much at the two dances given. It is my opinion that a vast majority of the students would be in favor of continuing these informals, and until their wishes are fully known the Council should hesitate before following demands of a few inmates of Wright Hall.

Of course, it is almost impossible to have a dance without the fair sex, and they seem to enjoy tripping the light fantastic toe. As yet, no one has been able to discover the reasons why some of the young ladies in the Hall oppose these dances. A cynic has insisted that the informals ruin the prospects of a successful man-hunt, and hence the opposition. I don't believe that, and besides the girls are not old enough yet to worry about matrimonial prospects. One might hazard any number of explanations, and still be a great distance from the truth of the matter.

A compromise of some sort should be arranged. It promises to be a long winter, and a dance every other week would relieve the monotony of studying. The informal dances are very effective in furthering a feeling of devotion to Alma, her traditions and the spirit she stands for. They should be continued.

Interested.

Everybody is to be at Albion Saturday.

ALMA DOWNS KAZOO IN HARD FOUGHT GAME

(Continued from page 1)

18 yards to the 38 yard line. Macdonald made a yard and a bad pass from center cost 18. Macdonald punted to the Kalamazoo 40. Berry made 6, but Zelner was thrown for a loss of 3. Kazoo punted high and short to the Alma 40. Gaelor recovered a fumble. Catherman hit the line for 4 and Lamb added 3. Alma punted outside on Kazoo's 9 yard stripe. On the second play Black punted to Alma on the Kazoo 48 yard line. Macdonald hit the Kazoo line for 7 and then added another yard. Catherman ripped through for 7 and first down on the Kazoo 33. Catherman made 4 more. Dawson lost 5, but a pass, Dawson to Fraser, gave 7. Macdonald attempted a place kick, but the ball went wide, and it was Kalamazoo's on her own 30. Kazoo punted to Alma on the Kalamazoo 39. Macdonald hit for 2 then for 4, and Lamb came back with 3. Dawson attempted to pass, but with the passers all covered, he tore around right end for 20 yards and first down on the Kalamazoo 10. Catherman made a yard, as the quarter ended.

Poor Pass Hurt

On the first play, Gaelor, who had replaced Dawson, passed low to Macdonald when he tore at the line, and the ball slipped away from "Wolf" on the 6 yard line, although Macdonald kept on going through the big hole to the goal line. Bridgeman saved Kazoo by recovering the ball. Kazoo was penalized to the 1 yard line for holding. Kazoo punted to the Kalamazoo 40. Macdonald made 7 and then Alma was given 15 yards for holding. On the third down Alma punted to the Kazoo 7. Black was thrown for a 4 yard loss and Zelner lost 1. Black punted and Macdonald returned the kick 8 yards to the Kalamazoo 34. Alma was offside. Macdonald made 1, but Gaelor was stopped in his tracks. Macdonald added 4. His attempted placekick was short, and Black returned it 15 to the Kazoo 23. Bridgeman made 5, and Zelner added 1. A pass was blocked, and Black punted. Alma played it safe on the Alma 43. Lamb was holding and Alma was hit 15 yards. Hawthorne made a yard. Lamb got 4. Kalamazoo was offside. Alma punted as the first half ended. Score Alma 0—Kalamazoo 0.

Kalamazoo recovered Alma's on-side kick on the kickoff on the Kalamazoo 43. Bridgeman was stopped and on a second play Alma downed him for a 7 yard loss. Gaelor took Kazoo's punt on the Alma 35. Chatman hit for 4 and then added 5 more. Nate slipped through for 2½ and first down on the 46 yard line. Chatman got 3 and Macdonald 1, and then Macdonald was stopped without gain. Alma punted outside on the Kalamazoo 31 yard line. Black got 1, and Skeen 5. A pass Black to Muelenberg gave Kalamazoo 12 and her first, first down. Black went off end for 5, and Bridgeman hurried through for 8 and first down, on the

Saturday's results in the Michigan Intercollegiate saw Alma clamber into a tie with Michigan State Normal for the leadership of the association, with a defeat of the crack Kalamazoo College team. It was a brilliant battle with that Celery City outfit that had conquered Beloit 10 to 3, a team which a week previous had held Notre Dame 19 to 3. It marked the passing of Kalamazoo as a contender, except by only the greatest upset in the history of the association.

Team	Won	Lost	Tied	Pct.
Alma Col.	2	0	0	1.000
Mich. S. N.	2	0	0	1.000
Kal. Col.	1	1	1	.500
Albion Col.	1	1	1	.500
Hillsdale Col.	1	2	0	.333
Olivet Col.	0	3	0	.000

Saturday's results aside from the Kalamazoo-Alma game were Hillsdale 14, Olivet 0 (M. I. A. A. game), Michigan State Normal 7, Ferris Institute 0; Albion idle (waiting for the Alma game.)

Alma 24. Black got 1½ and then was stopped in his tracks. Black's pass to Muelenberg, who crossed on the field gave Kalamazoo a first down on the Alma 6 yard line. Bridgeman was thrown for a 4 yard loss when the Alma team tore the Kazoo line to pieces. Black tossed a pass to Davis for a yard gain. Black got 2 yards. Black dropped back on the fourth down with the wind at his back and attempted a dropkick from the 16 yard line. It was wide. It was Alma's ball on her own twenty. Macdonald made 5 in two tries. Lamb lost a yard. Macdonald punted to the Kalamazoo 42, and on the first play, Kalamazoo playing the wind booted to the Alma 18. Nate made 2 as the quarter ended.

Alma Scores And Wins

Nowiski replaced Fraser at center. On his first play, the muddy ball slipped, when he passed it back and it rolled to the 1 yard line. Macdonald's punt was short and Kalamazoo got it on the Alma 22, giving her another possible scoring chance. Skeen made 2, and Black added 2 more. Catherman went into the air and knocked down Black's attempted pass to Muelenberg. Black's dropkick from the 27 yard line was short. Alma punted to Kazoo, and the ball rolled to the Kalamazoo 28 yard line, Hawthorne getting away the best boot of the day. Skeen made 2. Alma got Kazoo's punt on the Alma 44. Alma received 15 yards for holding. Hawk punted to Kazoo's 15. Black was thrown for a two yard loss. Black dropped back to punt and Burton ripped through with Harvey to block the kick. The half played for Harvey and Burton went straight at the kicker and blocked the ball, recovering it for Alma on the 1 yard line. Macdonald made inches on the attempt to score, but on the second play smashed through the defense to the goal. Macdonald goaled, but Alma was holding on the play and lost the extra point.

Kalamazoo then opened with passes in the attempt to score, and tie or win by a point. Seemingly a pass in midfield was due to go true to Muelenberg, with no one between him and the goal. Catherman went into the air and just managed to pick it out. It was Alma's ball and Alma played it safe with the old army game, hitting the line, then punting forcing Kalamazoo far back into her own territory.

Captain Harsch, Berry and Bridgeman were the big stars for Kazoo, and Macdonald, Burton, Anderson, Veeder and Fraser for Alma.

Alma (6)	Pos	Kalamazoo (0)
Holdship	L. E.	Muelenberg
Burton	L. T.	Harsch, C
Davis	L. G.	Prior
Fraser	C.	Gleason
McGregor	R. G.	Wicks
Anderson, C.	R. T.	Watson
Veeder	R. E.	Davis
Dawson	Q.	Black
Catherman	L. H.	Berry
Lamb	R. H.	Bridgeman
Macdonald	F. B.	Zelner

Periods 1 2 3 4 Final
Kalamazoo 0 0 0 0-0
Alma College 0 0 0 6-6
