NUMBER 19

ORATORS GO TO STATE CONTEST AT HOPE FRIDAY

Preliminary Meet at Kazoo is Omitted from This Year's Program.

The preliminary bouts of the annual intercollegiate oratorical contest, which were to be held last Friday, were omitted from the program this year due to the small number of contestants, and local winners will now go directly into the State finals at Hope this Friday, March 8.

The finals will be in the Memorial Chapel at Hope College. The women will speak in the afternoon and the men in the evening. There will be a gold medal awarded to each of the two winners, a silver medal for second place, and a bronze medal for those placing third.

Alma will be represented at Hope by Alfred Fortino, who will speak on "The Science of Human Relations" and Vivian Harwood, whose oration is entitled "Mad Civilization". The results of the final contest will be announced as soon after the evening performance as possible.

Later in the spring there will be a poetry reading contest to be held at Wayne University.

SCOTS HUMBLE BEARCATS 44-22

Legion Five Knock Off Central Frosh Handily 43 to 31.

Amid the drifts of snow and ice, the Scots buried the Central Bearcats last Tuesday, 44 to 22 to take the second game of the season from the Mt. Pleasant five. For the first time this year, the Scots showed drive for the basket and passing that went for points.

There was no one hero of the game as far as the Scots went. Melvin Fuller dropped in 11 points to top the scoring, but John Volk and Ben Ewer were on his heels with 10 points each, and Riley Block with 9 tallies came next. Don Watrick, Central's veteran guard and center, topped the Bearcats with 10 points, five of which were made in the final three minutes.

The game started out to be a listless affair, and two minutes passed before Bonnell tipped in a rebound for the first tally. Stan Bussard followed this a couple of minutes later with a dog shot to tie the score. Fuller's free throw gave the Scots the edge, which was increased by Bussard's gift toss. Ross's lone basket of the game came at this point to knot the count. Bonnell, Watrick, and Van Dalen dropped in five points between them to give the Bearcats a 9 to 4 lead. Volk and Ewer got baskets on shots from out on the floor, when Watrick's foul shot gave the Invaders a two point lead.

Led by Fuller, Volk and Riley Block, the Scots piled up the next 11 points to lead at the half time 21 to 10. From then on the game was not in doubt, for the Scots started where they left off with the first four baskets in the first four minutes of play.

Both squads were used in their entirety throughout the game, but with the exception of Wirick of Central and Malcolm of the Scots, just the starting fives figured in the scoring.

THETAS ENJOY SLEIGH RIDE LAST THURSDAY

Last Thursday the members of the Alpha Theta Literary Society frolicked about the countryside on a merry, old-fashioned sleigh-ride and supper party.

The group left the hall about four thirty, and after riding nine miles out into the country (with the horses chasing Helen Walker half the way), they stopped at a farm house for a supper of hot-dogs, coffee, and dessert. The horses were back in the barn by ten, pardon, I mean the girls were back at the Hall about nine-thirty, tired and happy.

MIAA Championship to Be Decided Tomorrow

Hillsdale repeated Alma's act of last year by winning seven in a row after losing their first three conference games to tie with Albion for the M. I. A. A. championship by defeating the Britons in the second overtime last Tuesday.

A new ruling provides for a play-off in case of tie, so these two teams will tangle again tomorrow night on a neutral floor at Jackson. It is anybody's game, and the playing of Frank Stanich and Selby for Hillsdale and Smith and Berner for Albion will probably decide the winner.

This year's contest has lived up to all expectations. Albion came through with the team they were thought to have, the others constantly remained a threat, and the 'Dales were the dark horse of the season. The standings are now:

	W	L	Pct.
Hillsdale	7	3	.700
Albion	7	3	.700
Hope	5	5	.500
Kalamazoo	5	5	.500
Alma	4	6	.400
Olivet	2	8	.200

PHIS INITIATE 12 ON MONDAY NIGHT

Having finished their hell week last Saturday, twelve freshmen became members of Phi Phi Alpha at the meeting of the fraternity last night. The new members are Kenneth Carter, Elwyn Carter, Stanley Carter, Charles Day, Bill Edwards, Wayne Forrester, Cassius Lee, Lawrence Phillips, Bob Thurn, Harold Dean, Joe Kennedy and Emerson Smith.

With the third level taken the paddles were put aside and all became brothers. All new members will attend regular meeting from now on and enjoy the same privileges as well as the same responsibilities as the old members. All of the new men came through the rigorous hell week with flying colors and proved their mettle.

ZETAS HONOR NEW MEN WITH DINNER MONDAY

Last night the Zeta Sigma Fraternity gave a dinner at Wright Hall in honor of their fourteen new members, who were formally initiated into the society a week ago Monday, and their two new pledges, Lionel Gibb and Frederick West. In addition the alumni and honorary members on the faculty were present. After dinner the group adjourned to the fraternity house for their regular meeting.

Bud Campbell Reviews Scot's Cage Season

The 1935 basketball season of the Scots will not go down as the worst, and neither will it go down as the best. In MIAA competition, the Scots won four games and lost six. Those four victories were scored over four different teams all on the local floor. Three of them were scored over teams that finished at the top of the MIAA race. The first one, Hillsdale, was scored over a team that tied for the MIAA lead as did the last one of Albion. Hope was humbled here, and was forced to win in the last few minutes at Holland. Albion was forced to go into overtime. Hillsdale won in the last half, after the Scots had led at the half.

The other victory was scored at the expense of Olivet on the Alma floor. The boys started from the first and kept the lead. Ed. Novak was held to 7 points, while Volk scored twice as many.

The Scots had many disappointments during the season. The sharpshooting Grand Rapids Junior five outscored the Scots, but they came back to nose out Hillsdale for the first MIAA win. After a victory over Muskegon J. C., the J. C. champions of Michigan, the Scots lost to Kalamazoo and Grand Rapids J. C. away from home.

Al Glance, whom Coach Campbell had been grooming left school during the holidays, so Clyde Dawe was picked to fill in at the other guard. At Central State the Scots rallied in the last ten minutes to take a thriller away from the Bearcats, as Volk led the scoring with 18 points.

Coming back to Alma for a stretch, the Scots walked on Hope 36 to 30, but lost the services of Dawe, who fractured a bone in his foot. Nevertheless with Beach and Malcolm playing the other guard, the Scots took Olivet 31 to 23 for the most decisive win of the season. Albion was sent home after leading most of the way with the smaller end of a 32 to 29 score.

U. OF M. TO HOLD MODEL ASSEMBLY

International Relations Clubs Will Convene at Ann Arbor in May.

At a meeting of the State Advisory Committee held in Ann Arbor in January, it was decided that this year's Model Assembly of the League of Nations will convene in Ann Arbor, May 3 and 4.

The decision as to place followed the recommendation of the last Assembly according to which if no other college notified the committee that it wished to be the host this year the Assembly would meet in Ann Arbor. The late date is due to the desire to avoid conflicts with other meetings, particularly the regional meetings of International Relations Clubs.

Only a tentative program has been adopted, but its features are about the same with the exception of the Council meeting which has been added to the Assembly and committee meetings. "The International Labor Organization" will be the subject of address at the first plenary session, and the Saar Basin, International Munitions Traffic, and Balkan problems will furnish the basis for discussion in the three committees.

The Council meeting, the special feature of the program, will consider some frontier incident such as the Italian-Ethiopian case or that of Hungaria and Jugoslavia. The session will close with a luncheon on Saturday after the second plenary session in the morning.

A more detailed program and assignment of countries, subjects and committee positions will be sent out shortly. The local club will devote the rest of their meetings in preparation for this Assembly.

BOB REED IS ELECTED SOPHOMORE TREASURER

Last week, in a meeting of the sophomore class, Robert Reed was elected to the office of Treasurer, which was made vacant by John Fraker's leaving school. Reed defeated Bob Sayles by a vote of 26 to 20.

The Phi pledges gathered some very interesting statistics on the private life of Wright Hall. Remember, girls, everything you say will be used against you.

College Editors and Student Bodies Agree on Recent Peace Poll

The special poll of college editors indicated the same peace sentiments shown by the students in general. Both groups were opposed to war except upon invasion and an army and navy second to none, and both advocated government control of munitions and universal conscription of all resources in war. The latter, however, favored the League.

In reply to accusations "Red" influences and radicalism the Temple U. offers this: "Viewing the horrors of history's warfare, the student is struck with the great loss and the little gain of it. He questions the right of diplomats to play chess with men. He does not look upon his body as cannon fodder or his spirit as a sacrifice upon the altar of international capitalism. If that's radical, then we're all Reds and let's be happy about it."

W. Randels to Study at Institute of Advanced Studies in Princeton

The Institute for Advanced Studies, which is located in Princeton, has awarded Dr. William Randels, member of the class of 1930 and son of Dr. George B. Randels, a grant in aid for next year so that he may carry on his mathematical research.

This Institute has been made famous by the presence of Einstein as one of the five world-renowned mathematicians who direct the research in pure mathematics. William Randels at the present is studying under a Sterling fellowship at Yale University.

Students of Drama Are Offered Scholarships

The Drama League Travel Bureau, has at its disposal scholarships covering full tuition for the six weeks summer session at the Central School of Speech and Drama, affiliated with the University of London.

These scholarships are primarily intended for students interested in literary and drama study, but are also given for the more important purpose of promoting international understanding.

Students and teachers are eligible to come before the committee on awards, and application blanks may be obtained from the league's headquarters in Essex House, New York.

DAY SETS PACE IN INTRAMURALS AT MID-SEASON

Girls' Start Round-Robin with Soph-Frosh Game This Wednesday.

After the intramural games scheduled last week Day's freshman team strengthened their lead by a 22-12 victory over Vitek's Vultures in the opening game on Wednesday night with Art Smith (D) the leading scorer with 10 points.

In the remaining two games Lau defeated Purdy 15 to 9 and Harat (L) was high point man with 3 baskets, and Ludwig's Lubbers won their game with Carter and advanced to second place.

This week six games are scheduled, and in order to complete the round-robin before spring vacation it is necessary for teams to play at 4:30 on Tuesday, Thursday, and Friday. All teams except Lau will play this week, and the standings will probably be pretty shuffled up.

Wednesday the girls' intramural basketball games will begin. This week the freshmen will meet the sophomores according to the present schedule. Girls' intramurals will be played on Wednesday night from now on.

The standings for the men are as follows:

	W	L	Pct.
Day	6	0	1.000
Ludwig	5	1	.834
Walker	4	1	.800
Vitek	2	2	.500
Fertino	3	3	.500
Purdy	2	3	.400
Lau	2	4	.333
Seniors	1	3	.250
Carter	1	4	.200
Sayles	0	5	.000

INTRAMURAL SCHEDULE

	G	F	T
Fisher (D)	30	6	66
Walker (W)	30	4	64
Fortino (F)	24	3	51
Mapes (L)	22	6	50
Smith (D)	19	6	44
Sayles (S)	15	3	33

Tuesday
4:30—Vitek vs. Sayles

Wednesday
4:30—Fortino vs. Day
7:15—Ludwig vs. Walker
8:15—Bussard vs. Purdy
9:15—Carter vs. Vitek

Friday
4:30—Sayles vs. Bussard

PLAY-DANCE IS SET FOR MAR. 15

Drama Club to Present Two One-Act Plays and Dance with Low Admission.

On March 15, a week from Friday, the Drama Club will put on two one-act plays in the Chapel, and a dance afterwards at the gym. The plays will be "Revenge", directed by Holmes Sullivan, and "Half-past Midnight", directed by John Boergert; John and Sully are also co-chairmen of the dance.

As before, the dance will be a stag, and is strictly informal, the more informal the better. The first play will begin at 7:45, and immediately after the second play the dance will begin.

The tax for the plays is men 20c, co-eds 15c. The tax for the dance is men 20c, co-eds 15c; however, those attending the plays first will not have to pay the additional tax for the dance.

PRES. CROOKS TO ATTEND FRATERNITY CONCLAVE

President Harry Means Crooks will attend a State Conclave of the Alpha Tau Omega fraternity, of which he is an alumni member, to speak at their dinner on Saturday night, March 9, in Indianapolis.

ALPHA THETAS GIVE BID TO ANN CAMPBELL

At the regular meeting of the Alpha Theta Literary Society on Monday, February 25, a bid to the society was given and accepted by Miss Ann Campbell of Detroit, who enrolled at Alma at the beginning of the second semester.

EVERY STUDENT GET A STUDENT

Tomorrow

(By Alfred Fortino)

The chief task of education is to curb man's tendency to generalize. All scientific training is directed toward this end. But unfortunately this procedure is applied only in the study of the exact sciences and not in the study of human relations.

The modern student laughs at the idiotic suppositions of the middle ages. At the same time we congratulate ourselves on having discovered the "truth" about the universe and we attribute our success to our SCIENTIFIC explorations into the realm of nature. Today the scientist must have CONCLUSIVE proof before he accepts a theory as law. For making man scientifically inclined in his study of the elements that surround him education is to be congratulated.

But, for failing to make man scientifically minded in his attitude toward national and international problems of government, education must be condemned. The average American citizen is as much of a scientist as many of the learned men of the middle ages, but is no more interested in government issues than the villager of the 15th century.

It has been this indifference on the part of the masses toward the social, political and economic problems of society that has brought about the present crisis. Depressions, wars and revolutions are not inevitable parts of history. THEY ARE DISEASES BRED INTO SOCIETY BY THE GERMS OF CORRUPTION THAT ARE ALLOWED TO CREEP INTO OUR ORGANISM BY THIS SAME INDIFFERENCE. It is for education to stamp out this indifference, to make man socially conscious, to make him apply his science, to these far more important problems of economic stabil-

ity, social welfare and international good will.

In recent editions of a well known newspaper syndicate there have been appearing articles concerning "The Menace of Japan." This paper would have us believe that Japan is a huge giant, waiting to plunder the United States. And we read this fiction and believe it as the men of the middle ages believed the tales of Marco Polo.

Now let us become scientific and try to find the real reasons for Japan's actions. In the first place, 70,000,000 people are cramped in these small islands. The average working man receives \$9 a month as his income. Even the most prominent professor in the University of Kyoto receives only \$27 per month. In the Honjo quarter of Tokio we find houses that are typical of the average workman's home. They are simply wooden shacks, and every 15 feet there is a partition marking off the shelter of a family. Do these papers use these figures in their descriptions of the "Japanese Menace"?

Now the foreign nations, by command of the almighty industrialists, are closing their doors to cheap Japanese products. Many workmen thus become unemployed. They might emigrate to other countries. But most of these, the United States included, have shut their doors to Japanese immigration also. What are the Japanese to do? What would you do? Is it any wonder that Japan went into Manchuria, that she withdrew from the League of Nations?

Do the newspapers who advocate arming as a protection against Japan reveal these facts? Of course not. They have no purpose in being scientific. They are interested not in public welfare but in the passing of those measures which will bring the greatest profits to their owners.

Why?
Because the American public is indifferent to the condition of our social order and unscientific in his consideration of public questions. And why this?

Because the schools have taught them to be just that way.

**Pre-Medics Will Show
Pictures at Meetings**

Thursday night the Pre-medical Club will present two medical motion pictures in the chemistry lecture room at 7:15. The first dealing with the production and reduction of colles fracture, and the second entitled "The Story of Cholecystokinin."

Cholecystokinin is the hormone for gall bladder contraction and evacuation. Medical motion pictures will be presented regularly by the club throughout the semester, and attendance will be limited to members only. All science majors, pre-medics, pre-dents, those planning on becoming nurses, and interested members of the faculty are eligible for membership.

ALUMNI NOTES

Mrs. L. V. Cram (Esther Marsh) of the class of 1894 has been nominated by the Republican convention to succeed herself as member of the University Board of Regents.

Lester Doerr, '17, of Grand Rapids was prominently named in the Republican convention for membership on the State Board of Education. Pres. Wyant Wichers of Hope was nominated, however.

Watson Robinson of the class of '94 and his wife was in Alma last week because of the illness of his father, J. W. Robinson. Watson Robinson is a prominent lawyer of New York in the firm of Freauff, Robinson, and Sloan, and a director of Cities Service.

Clippings

By Arthur Boynton

February 22 may be remembered by most of us as Washington's birthday, but to a few (very few) it is significant because on February 22, 1889 the present Library building of Alma College opened its doors. This, however, was not the beginning of Alma's library. The gift of a Webster's Dictionary by Rev. J. A. Wight and a Cyclopaedia from Rev. D. M. Cooper prior to 1890 marked the nativity of the idea of forming the library. From this embryo has developed one of the finest libraries of its size in the state.

Basketball season is over, and this year we add the name of Volk to that list of former stars that include such names as Catherman, Carty, Borton and Dawson. All of these are still connected with basketball. The first two and last are coaching, while Borton is starring with the Hed-Aid five, and the two outstanding are Carty and "Bort". Detroit papers rank the latter as the best player developed in this part of the country, while Detroit coaches pay tribute to the coaching of "Red" Carty.

Looking ahead! Prospects for next year's cage squad with six varsity players back and the freshmen now playing in intramurals. There's "Tex" Walker, one of the outstanding players in the state last year, and Elder, who went to the semi-finals of the State Tournament with Alma High's team. Fisher, a leading scorer in intramurals, played on one of the best teams Rockford ever had, and Pat Riley is here to hold up the hon-

ors of Volk's home town, Traverse City. Gilbert is another one that promises trouble for the varsity men, while Chuck Day, who never played in high school, is one of the best in the freshman class.

Origins are always interesting, but the unique beginnings of Olivet stand out above all. A Mr. Shipherd, who had set out from Ohio to establish a Christian institution, lost his way, and, wandering around, at last found himself on the hill where the college now stands. He stopped at a nearby settler's house, but upon setting out in the morning he lost his way again and ended up on the same eminence. Starting afresh, musing as he rode on his plans, by and by he was startled at finding himself a third time at the top of the same gentle acclivity and in sight of the cabin he had left that morning. Believing this to be a sign of providence, he leaped from his horse and marked this spot for his future village and college.

The new radio at Wright Hall is kinda tough on some of the girls, now the fellows stay in and listen to the radio.

Unstad Gives Talk on Norway to I. R. Group

Norway with special emphasis upon the "Nordic Complex" was the subject of Professor Unstad's talk before the International Relations group last Thursday.

In a general discussion of the customs, habits and thoughts of his race and country he stressed their superiority over other people that they are taught and feel, their desire for peace, and their socialistic tendencies.

He pointed out that the labor party practically rules the country, and it is through labor that they have their greatest international ties. The policy of this

party opposes force and dictatorship, invasion of foreign capitalists, and seeks to bring all industry gradually under the government.

He also brought out that differences between Norway, Sweden and Denmark were like state differences in our own country. Rivalry existed but underneath it all they were just one race, and this was the reason for their neutrality in the World War, for Sweden sided with Germany and Norway with England.

WAYNE — 2,000 see Ossip Gabrilowitsch, leader of the Detroit Symphony orchestra, get honorary degree from the University last Wednesday night.

KALMAZOO — The Hornet's victory over Alma in their final game was the second time in eight years that Kazoo has defeated Alma on the Scots' home floor. Hathaway cleared the bar at 11 feet in the pole vault, while Hunt went 300 yards in 37.1 in the State Intercollegiate.

HILLSDALE—Four cagers are playing their last season. They are: Selby, Ojala, Stickney, and Frank Stanich.

Frank Davis relinquished his shot-put title to Mallard of Western State in the Michigan State Indoor Carnival. Mallard—46 ft. 11 1/4 in.; Davis—46 ft. 7 1/4 in.

CENTRAL STATE — Physical Education girls are sponsoring their struggle to teach recalcitrant would-be-hoofers for ten cents per hour every Friday afternoon.

HOPE—Joseph Toonian, senior at Hope College and native of Arabia, announces he is starting a class in Arabic for students and local people.

Picked up outside of the Green Mill.

"Hic."

"Hic."

"Don't talk back to me."

She: "Oh, Ken, I love you so."

He: "So what?"

Boy, did Adam get ribbed!

All work and no jack makes a playboy dull.—Ling Posie.

She: "Use both hands."

He: "Can't. Want me to put the car in the ditch?"

"Do you believe that story they're telling about Virginia?"

"Sure. What is it?"

She: "I'll marry you on one condition."

He: "O. K. That's not bad. I got into college on four."—Texas Ranger.

Dictionary: Sophomore — from the Greek sophos, meaning wise, and moros, meaning foolish. Sounds like a new way of saying a half wit.

Over the radio. Mae West: "I'm not really a wild woman. Why, I'm so tame almost any man can pet me."

Exclusive Interlude

Why I Never Joined A Sorority

1. I wanted to think for myself and not be led around by a bunch of sisters.
2. I never went in for women's organizations at home.
3. I didn't want a lot of fraternity boys calling on me at night.
4. I never danced with a man and I didn't want to start.
5. I hated the thought of dormitory and having to crawl over a lot of sisters to get into bed.
6. I didn't like the idea of rooming with one girl for a whole semester.

7. I don't look well in sleeveless, lowcut gowns.

8. I am a male.

—Hoppy.

After Hell-Week: Two frosh in conversation. "Yeah", sezzee, "before I pledged Zeta I was pretty conceited, but now that t'ey have knocked it out of me I'm one of the best fellows they got."

ANDREW JACKSON was the oldest man to occupy the presidency as he lacked but 11 days of being 70 years old when his term expired. **THEODORE ROOSEVELT** was the youngest. He was only 42 at McKinley's death.

Things are coming to a pretty pass what with all this lawlessness. Down in Krohawk County, Arkansas, a man shot a Republican. We didn't know they had any left after plowing every third one under and starving the rest of 'em, but I guess we all slip now and then. Any way, the judge had to fine the fellow for disturbing the peace.

through Ruth Malcolm and John Boyd.

Just as long as Reed keeps his beard out of our soup, we won't object.

There's a lot of trouble in one Keg, isn't there, Hazel?

Westendorf and Sully seem to be getting "that way" lately.

Vesta certainly goes in for variety. When we aim at her we never hit the same two twice.

The K. I.'s kind of keep the boys in the same sorority. They change men better than our basketball team.

Gretchen and Hanel seem to be clearing off together, then pairing off.

Clyde Dawe is back on his feet again, but we're wondering if Miss Rice will let him stay there.

And then there is that certain sophomore who thinks that Bob Reed is cute in spite of his rusty beard.

Evans will soon be able to double for Chandu the magician.

What's this! 3 o'clock fire drill and all accounted for. A fine state of affairs.

We are informed that McGarvah is not the lady of Christopher's intentions, but who is she?

Several days went by before the snow on the Museum steps was carrying any footprints.

Boy, they're gettin' so pious in W. H. that Molly, Chris, and Genevieve observe Lent a week early. They found out their mistake and are catching up now.

Anne (Do you spell it with an "e"?) Campbell brought her own male stooge from Detroit with her, or is it just Mary's little lamb that follows where ere she goes.

This is another R. O. T. C. year—Rough On True Couples.

"Pinky" Dawe isn't wasting any time now that his cast is off. And the object of his affection also cast off something.

Even freshmen like Al Jenkins and Thorn will be wearing pots according to the new Student Marshal.

"Chrygssaerueenalfinajuanjuar-isquejack" is Eskimo for "I Love you," and at the same time it is a reasonable explanation why Arctic nights have to be so long.

Most of you remember the little lady at the Strahl who bought a Chevy and was satisfied. Now she has bought a Hudson and is satisfied. What is this?

The fellow who asked what the \$1 lab fee in Geology was for hadn't seen Doc's juggling act. Fifty cents of each dollar goes for accident insurance on the fellows in the front seats and the rest is for breakage.

And then there is always the guy that insists on saying, "So what."

Doubtless, you have all met Punjab Clohset.

Novak, Volk, Smith Are Leading MIAA Scorers

The Albion-Hillsdale game last Tuesday, which marked the official end of the MIAA, failed to change the standings of the leading scorers, and Novak, Olivet, leads with 103 points. Volk is second with 101, and Smith, Albion, takes third with 100.

Novak trailed all season, but gained his title by scoring 42 points in his last two conference games. Volk and Smith, each with one game to play, were tied at 89, and Volk scored 12 points in the Kalamazoo tilt to edge out Smith, who was held to 11 by Hillsdale.

The record of 116 points, which was made by John Volk on last year's co-championship team, still stands as a target for Novak, who is only a sophomore, to shoot at.

A rolling stone gathers no moss—who cares? Who wants to gather moss anyway?

Take a cigarette like **CHESTERFIELD**

You know I like that cigarette...

I like the way it burns... there's plenty of taste here.

Chesterfield is mild, not strong... and that's another thing I like in a cigarette.

What a taste. They satisfy... and that's what I like in a cigarette to do.

I get a lot of pleasure out of Chesterfield... you know I like that cigarette.
