"LEST WE REGRET"

Is experience the best teacher?

Mary Allen

Where automobile accidents are concerned, experience is the best teacher only when it is somebody else's experience, according to a new booklet entitled "Lest We Regret" just issued by The Travelers Insurance Company. The booklet presents a comprehensive analysis, based on official reports from the 48 states, of the facts about accidents in which 32,-000 persons were killed and more than a million were injured last year.

"The experience of losing his life is wasted on the driver Wright Hallology or pedestrian killed in an automobile accident," the foreword states. "The experience of months in a hospital cot or of weeks in a law court is costly tuition for one's education in safety. If we wish to avoid these dire costs, we must apply the experience of others to ourselves."

Automobile Accidents Analyzed

The experience of the thousands who had to learn their very snorky black suit accented has caused to be recalled some lesson "the hard way" in 1938 brings to light many interesting facts such as the following:

Exceeding the speed limit was responsible for 39.6 per cent of the deaths and 25 per cent of the injuries. Despite a decrease in fatalities in 1938 compared with 1937, the percentage caused by speed went up.

Almost 94 per cent of the drivers involved in fatal accidents were male and only six per cent female.

More than 84 per cent of the fatal accidents occurred in clear weather, and 77 per cent happened when the road surface was dry.

More persons were killed on Sunday than on any other night, Johnny Tomes really took day of the week, while the heaviest injury toll came on Saturday. More persons were killed between seven and eight p. m. than at any other hour.

Almost 43 per cent of all victims of fatal traffic acci- of the latest steady couples, Paul immediately begins to feel very. dents were pedestrians. Almost half of all pedestrians killed were either crossing between intersections or walking on rural highways.

"Danger Unit" Introduced

In addition to the statistical analysis, the booklet introduces a new and unique concept of driving danger in terms of "Danger Units." It is pointed out that energy increases progressively as the speed of a car increases, but that the increment in energy far outstrips the addition in miles

Taking as its equivalent the average shock limit of the human body, the Danger Unit is mathematically equal to the energy developed in an automobile moving at 25 miles per hour, to a street-width of actual stopping distance, to one hour, to a street-width of actual stopping "roll-over" in case of an accident, or to the fall of a person ley.

"Melancholy Baby"—Fran Fredfact that the energy of a moving body increases as the square of the speed, is illustrated in word-pictures clearly understandable even to persons whose knowledge of physical laws or of engineering is limited.

High Speeds Costly

Also contained in the booklet is a discussion of the high cost of fast driving. An increase in average speed from 35 to 45 miles per hour will save a little more than six hours of time in each thousand miles driven, it is shown, but each of the hours saved costs about 65 cents. An increase in average speed from 35 to 55 miles per hour jumps the cost of hours saved to about \$1.20 each.

The insurance company will distribute two million copies of the booklet this year in the interest of highway safety. Single copies or quantities are available through the company or any of its agents.

SNOW WHITE AND THE 40 THIEVES

It seems the queen had a mirror which was always talking out of turn and every day the queen who hated herself not at all would address the aforesaid mirror thusly, "Mirror, mirror, on the wall, have I plenty on the ball?" and the mirror would chirp:

'Queenie, you are plenty nice, Nearly good enough for Rice.' So the queen goes on laboring under the belief that she is plenty smooth, and looks like the third one on the left in the Casa Manana review. Howsoever she trips to the mirror one Gloomy Sunday and is saying,

"Mirror, mirror, tell me now, Are my face and form a wow " But the mirror says:

'Sorry babe, you're on the slip, Snow White gets my vote this trip."

So the queen waxes very nasty and she puts out a call for her rubout man and advises him that if he desires to stay hale and hearty it is for the best that he brings her Snow White's ticker on the point of a stiletto. So the hood takes Snow White for a ride but he gets soft and tells her to take a powder. So he kills a pig, brings home its heart and the queen is quite hap-

Snow White wanders through the woods until she spots a cave. There is a big door on this cavern and when she puts the old rap-rap on it, a peep slot opens and a guy who appears to be a cross between Dracula and Jim Farley looks out. "Who sent ya?" he says.

"Joe," says Snow White. "No," says he.

"Red LeClaire," she guesses.
"O.K." and he opens the door.

Snow White is afraid, but she soon finds out that the forty thieves are not mean but they just quite happy, until one day the and the mirror deals her a nasty shock when it says,

INDUOR MEET IN HILLSDALE

Wednesday.

The Alma indoor track squad goes to Hillsdale tomorrow morning to compete in the fourth annual M.I.A.A. Indoor Carnival. Last year the Scots came through in second place, and they are rated along with Albion and Hillsdale as strong contenders this year. Kalamazoo, winner of the first three Carnivals, is of course one of the strongest teams.

Two of the Scot entries, Dud Taber and Mel Hultman, are holders of field house records. Taber holds the record of 4.7 in the 40-yd, dash, and Hultman in the pole-vault with 11 ft. 11/2 in. Taber set his record in 1937, and Hultman in 1938. These two, along with Joe Godleski, Angus MacGarvah, Don Smith, Bill Carr, and George Collins, are counted on for the bulk of points. The Scots worked out on the Michigan State track Saturday, and showed an improvement over last week's showing in the state meet. Smith, Carr, Godleski, and Cicinelli looked better, and Bob Gould ran a good mile in his first attempt.

The following men are entered in the meet: Pole vault, Mel Hultman, G. Collins; Shot put, Mac-Garvah, P. Cicinelli; Broad jump, Godleski, Collins; High jump, C. Elder, Collins; 40-yd dash, Dud Taber, Godleski; 40-yd. low hurdles, Don Smith; 40-yd. high hurdles, Smith, Collins; 440, Bill Carr, Bill Moran; 880, Jim Fookes, Morley Webb; Mile, Bob Gould, Ken Hathaway; Two mile, Al Lindley; Relay, Smith, Godleski, Taber, Ci-

> Alma has a true jitterbug in the person of Dane Smith-a killer-diller in disguise. Betty Thomas didn't do so bad either. Bud Mc-Lain is doing his fitterbugging elsewhere. Bob Ruthven has start-ed his old habit of weekly attendance at the double-R. We're wondering when Adams and Alma will come out with the formal an-nouncement. It took Sally Hinckley a long time to decide on her escort. She got even with Dick Krall with a six-thirty call.

I certainly wish Hester Moon would get all of her loves settled. Chuck Humiston , Chuck Meach, Art Russell, and Tom Plowman are going to start a bachelor's club, with weekly meetings at the double-R. It seems their femmes are going on an extended tour.

Jimmy Emms is furnishing some competition to Jack Richardson for the hand of Marjorie Flemming. I wish Dick Ginther would make up his mind as to who it will be, Baker or Niles. So you think that dining room rules are hard to take! Here's what they thought about such in 1830, from a book entitled "The School of Good Manners." Our grandmothers followed this to the limit. Maybe after scanning it you-'ll see that we've improved some. "Children's Behavior At The Table"

"Come not to the table without having they hands and thy face washed, and thy head combed.

"Ask not for anything, but tarry till it be offered thee.

"Speak not at the table; if thy superiors be discoursing, meddle not in the matter; but be silent unless thou art spoken to.

"Make not a noise with thy tongue, mouth, lips, or breath in eating or drinking.

For some of our campus and classroom wits, these rules might still be applicable:

"Children's Behavior in Discoursing"

"If thy superior sneaks to thee while thou sittest, stand up before thou givest any answer.

"Loll not when thou are speaking to a superior, or spoken to by him. "If thy superior speaks anything wherein thou knowest he is mistaken, correct not or contradict it, nor grin at the hearing of it; but pass over the error without notice or interruption.

"If thy superior be relating a story, say not, I have heard it before, but attend to it as if it were altogether new to thee: Seem not to question the truth of it. If he tell it not right, snigger not nor endeavor to help him out, or add to

WORLD IN REVIEW

By George H. DeHority

While Congress rushed through the largest armament appropriation in its history, Great Britain sought the other means to peace disarmament

In the past year, Great Britain has led the world rearmament race, but now the statesmen feel that the European situation is much improved and hope for some form of limited disarmament this year. Prime Minister Neville Chamberlain plans to call a conference of the big powers to consider calling a halt to the arms race. Yet, at the same time, Great Britain continued on her greatest peace-time rearmament program, spending more than a million a day for airplanes alone. The question facing the world and especially Congress is — "What assurance have we that Germany and Italy will disarm, and if so, will it assure peace?"

Last Thursday the United States and Brazil concluded a financial and commercial agreement designed to strengthen economic and political relations between the two countries and, it is hoped, eventually halt Fascist-Nazi incursions in Latin America.

The agreement calls for a \$50,000,000 gold-reserve fund to assist Brazil in establishing a central bank and increasing the size of commercial credits which the Export-Import Bank will establish with American exporters on behalf of Brazil.
