Exlax sponsors moving event

## Piglets win College Bowel tourney

By Bow L. Movement  
Almania Waste Manager

The first annual College Bowel Tournament took place this past weekend in Mitchell stalls one, two, three and four. The tournament, sponsored by Exlax, pitted the Delta Ramma Sow fraternity against the Zeta Piglet fraternity.

The moderator for the event was Ty D. Bowl. Bowl has a Ph.D. in flushology and his dissertation was entitled, "The Complexity of Having the Hand Take On the Roll Reversal: A Stinky Mess."

The contest started with the Sows in stalls one and two and the Piglets in stalls three and four. The Pigs flushed first followed by the Sow's double flusher.

Starryl Shmuck of the Piglets grunted, "If it wasn't for Soggy, we would not be where we are today." He added, "If at any time chili fritos were a blessing in disguise, the time is now."

The first half action ended in a tie with the score twelve up.

The half-time entertain-

ment was hosted by local Soggy workers farting to "I'm Looking Over a Four Leaf Clover."

The second half was delayed because Shmuck's stall had plugged from what moderator Bowl called, "Heavy flow." He stated, "That kid is really full of it," referring to Shmuck's nine flushes.

The second half continued with a surprising request for paper in stalls three and four. The action increased when the Sows did their famous double bomb where both members drop loads and flush simultaneously. However, this movement did not discourage the Piglets. They went ahead to win, 19-16, where in the final 40 seconds the Piglets grunted to perfection, not missing a beat. Bill Mealy of the Sows took the Conscientious Flusher award for his polite flushing throughout the tourney.

When the stall doors finally opened the exhausted winning team, walking rather bow legged, exclaimed in unison their theme, "Flush You."

The Zeta Piglet team [left] and the Delta Ramma Sow team grunt and groan for victory. The Pitilets flushed the Sows in a come from behind victory, 19-16. The Piglets are shown here taking the lead in behind closed door action.

## Alma College Potty Policy

### Rationale

Since September, 1973, Alma College has permitted the use of potty deposits by student members of the college community under certain circumstances.

The privilege granted by the College to individuals and groups to deposit potty on the campus should not interfere with the basic purposes, functions and environment of the College. These basic purposes would include the College's effort to: (1) encourage the intellectual, ethical and social growth of its students by means of its curriculum and student life programs; (2) allow for substantial areas of personal freedom for students to know and practice standards of mature behavior, yet assure that such behavior does not infringe upon any student's right to privacy, to study and to rest within their resident facilities; and (3) acknowledge the behavior of students as one of the factors which gives witness to the academic excellence of the College, its attractiveness as a place for teaching and learning and as an institution worthy of the financial support of donors and alumni.

The basic assumptions of this policy have remained in effect since its adoption in 1973 with only minor modifications to some of its procedures which govern the implementation of the policy. It is the intention of the College to retain these basic assumptions within its potty policy.

1. The use of potty deposits on the campus should be in compliance with approved State, federal and local laws, including, but not limited to: (1) the age specified for the legal load, possession and purchase of potty deposits; (2) the prohibitions on furnishing such deposits to those not of legal status to posses or unload such deposits; (3) the limitations on the manufacture and/or transportation of such deposits; and, (4) the use of state licenses for the distribution of such deposits.

2. The primary responsibility for knowing and abiding by the provisions of the College's potty regulations rest with each individual student; however, the College has the authority to deal with infractions of such regulations by the procedures of due process as set forth in the Student Death Footbook.

## Fire suspect in blaze

By E.Z. Layin  
Staph Writer

A damage assessment of \$1 has been made for the blaze that engulfed what was

once the fourth floor of Gelstoned Hall.

Alma Fire Chief, A. Pyro Maniac, stated that fire may have been a factor--but not exclusively.

This match is being held suspect by Alma police. Sources say fire caused the blaze that gutted the fourth floor of Gelstoned Hall.

The fire chief stated that perhaps faulty wiring in the Christmas lights hanging on last year's tree propped up at the end of the fourth floor's corridor, occasional pranks of torching posters on walls or tossing lighted matches down the incinerator chute, may have contributed to the blaze. Arson was completely ruled out.

Apparently, flames were seen shooting out the windows of every room on the fourth floor. In addition, the charred remains of Gelstoned's "penthouse" hint that the blaze was caused by

# NEWS BVDs

## Nothing to growl about

Dr. Spaniel Overbearing today contested the Alma College leash laws. Spaniel stated, "Bark, bark!" and added, "Woof, woof, woof."

In addition, Spaniel whimpered about the lack of fire hydrants on campus. He said heatedly, "Grrrrrrrrr!"

In a gesture of defiance aimed at Oscar Relic, Spaniel lifted a hind leg and commented, "Sssssssssssssss."

Following the incident Relic said, "I guess he was pissed off."

## Lynching slated

The First Annual Beat an Administrator with a Stick Day will take place in Sow lobby next Sunday after the Nepal Sunday chapel service.

The first administrator will be Dr. Spaniel Overbearing who stated, "I am really looking forward to being lynched, I'm a lover of pain and this should be exciting."

The parade will start at 10 a.m. Following the parade will be a luncheon and then the lynching no later than 2 p.m. Seating is limited because of the victim, so get there early.

## Almania denied pay cuts

At last Wednesday's student council meeting editor-in-chief of The Almania asked that her staff's salaries be cut in half due to what she said was, "A dedication that we feel we owe the students of this fine institution." and added, "We want our pay to be cut in order to spend that money to develop new energy resources for the future."

President of council denied her request stating, "I think you should all get pay raises and I'll cut my pay."

## Potty policy violated

President Relic called a meeting of all administrators last week to discuss the recent violations of the potty policy.

At the meeting he stated, "We all need to keep our eyes on the violators of the policy." and added, "My yard is so full of potty that the dog won't even go outside and besides that I'm getting used to the smell."

The policy was formed after community government meetings were so full of potty that they didn't know what to do with all of it.

## Sexual brutality probed

Senate Majority Leader Howard Faker said last month the Sexual Relations Committee should investigate the "tales of brutality, whips and chains and leather straps" told by the Americans who were forced to return to the United States.

House members urged similar hearings on their side of the Capitol and one demanded that Iran be made "to teach us all about these actions at no cost."

Faker would not offer an opinion whether the United States would make the agreement, stating that the Sexual Relations Committee was "getting into it."

## Stand on arms limit

A high-ranking Soviet gymnast and member of the U.S.S.R. professional-though-we-pretend-to-be-only-amateurs-like-the-stupid-Americans gymnastic team has said Moscow will consider new U.S. proposals for placing limits on strategic arm-standing, but only if they are based on the principle that neither nation can use the nose for balancing.

Evgekji Fyrdvordk-Supwzovr said in an interview in Washington that if the Reagan administration and the American Olympic Association propose for a new Strategic Arm-Standing Limitation, by seeking to achieve muscular superiority for the United states, the negotiations will fail.

Fyrdvordk-Supwzovr, in his closing remark stated, "Noitisonp fo yteircos menot dspen tanatprouminu, etovon nerdlihch rehvh, vordok lucinvr ski povouxskii!"

# Things to do on campus

1. Go to the library, blow your nose loudly, use your snot laden piece of kleenex as a book mark. Forget to remove it. Don't check out the book.
2. Make an appointment with Dr. Relic. Go to it.
3. Order a subscription to

Move your lips but don't make a sound. Shake your head sadly and write on a piece of paper, "too bad about your hearing problem. When are you going to resign?"

- a filthy, disgusting, smutty magazine under the name of a top administrator. Have it sent to his or her office.
4. Produce a mildly filthy, sort of disgusting, not quite smutty 2nd Annual Almania Lampoon Edition. Try to explain to top administrators that it was merely a long string of typos. Transfer to the University of Iran.
  5. Spend hours laboring over a 750 word Geek Spit-light Column. Use at least 1,000 capital letters and 2,500 exclamation marks. Mention the names of your members at least five times a piece. Have the student newspaper cut all but 75 words of it.
  6. Send M.J.J. Width a hairpiece. Send it C.O.D.
  7. Place "I love Ayatollah" bumper stickers on all faculty, staff and administration cars.
  8. Throw a "potty party." Do not inform the administration. Forget to cover the furniture. Pass out an assortment of laxatives. Dump your deposits in President Relics back yard.
  9. Go to the gym. Break into lockers and steal all the jock-itch spray. Smell old garments of clothing. Catch a buzz. Seduce the receptionist.
  10. Organize a search for Moldy Parrish.
  11. Organize a keep Moldy in Bermuda party.
  12. Go out to the Total Co. plant. Climb the flame's ladder. Light the cigarette clenched between your teeth. Climb back down. Go to the towny doctor for plastic surgery on your face.
  13. Wake up. Go to breakfast and eat Soggy Food. Go back to bed. Wake up. Go to lunch and eat Soggy Food. Go back to bed. Wake up. Go to dinner and eat Soggy Food. Go back to bed. Wake up early. Sneak over to Hamilton's kitchen and throw-up in the bin marked "Salad Condiments." Go back to bed.

## Dunce List announced

By Ignor Amus  
Staph Writer

With the fall term of 1980 behind us, William Pothead, registrar, has been wading through cesspools of "red tape" trying to compile the Dunce List and the mean GPA (group partying activities) for various campus sectors for last term.

The overall GPA for the entire campus is a disgraceful 1.98. The figure is equal to the average acheived each term by you bag of worthless bores!

The freshman GPA was reported by Pothead to be .1 higher than the freshmen of last fall. Pothead had a hypothesis as to why this earth-shattering rise occurred.

"The stupid freshmen come to Alma with exciting expectations. But soon, they realize how dead this bottomless pit is and by the winter term their group-partying activities (GPA) drop. It happens every year.

The Dunce List is compiled of students who carry a minimum class load of 13 credits, then drop a 4 credit class, carry 8 credits of P.E. at the one-hundred level and can achieve a 2.0 ("C") in group party activities.

**How have things been going for you since your arrival?**

Just ducky. I couldn't be more fulfilled. Everything just seems to mount all the time. My transition into Alma, I would have to say, has been handled by the Bored with grass, the staff with suffocation and by the students with warmth and enthusiasm. I couldn't ask for more.

**Your new house seems rather large. Do you find it that way?**

Heck, no. I wish it were

## Moldy Parrish missing in Bermuda Triangle

By Buff Foonery  
Staph Writer

Moldy Parrish, Alma College's registrar since 1843, after leaving on a short vacation to the Bermuda Triangle Red Roof Inn following spring term pre-registration, has surprisingly perished. Parrish had planned to retire at the end of this term.

A dedicated worker up to her disappearance, it had been rumored that a reception had been planned for Parrish by her colleagues who could not wait until she was out of their hair.

Exciting games had been planned for the reception; pin the IBM card on the donkey; duck, duck, file; and an envelope licking race. Parrish's favorite dish, pork oriental with cooked bean sprouts over stale fritoes, was to be catered by Soggy Food Services.

Parrish first came to Alma as a student and, like most of the other top staff employees, brown-nosed her way to her position as registrar.

As registrar, Parrish's duties include maintaining student records, supervising registration, coordinating class and examination schedules, informing local authorities of Greek parties, acting as messenger between "the mob" and "the administration" and compiling information on any person directly or indirectly associated with the college to include in her memoirs.

"Loyalty and long, effective service by a devoted staff are the key to an institution's success," a reporter overheard Dr. Ronald O. Clapp say over the phone to his bookie. "Unfortunately, no person here exem-

ples these features." bigger. I like having really big parties here. I like spending the college's money to entertain my friends. I like getting drunk on booze supplied by the college. Actually, we need more room. We had a party last week and we had to use the living room. The maids were rather upset; unsaturated vegetable oil is sort of hard to get out of the carpet, you know.

**You have quite a sexual background. Do you think that the students at Alma feel the same way you do and what if they don't?**

When you say that I have a sexual background, I think that needs to be examined.

plifies these features."

On her last day of work, Parrish told a group of reporters and other hostile five-year-plan students, as she emerged from the basement of the Curl Building, "I found it challenging to hassle students and make them run all over campus from office to office to get a prof's signature that I could have easily forged."

A "Come Home Moldy, We Miss You" banquet will take place for Parrish in the Dinging Memorial Chapel this Thursday around 2 p.m.

All those students who could tolerate Parrish are invited to attend. A small donation to the "Bring Moldy Home" foundation will be greatly appreciated--please leave your dollars with Bill Pothead, the acting registrar.

All those students who couldn't tolerate Parrish are also invited to attend. A slightly larger donation to the "Keep Moldy in Bermuda" foundation will be greatly appreciated--please leave your dollars with Bill Pothead, the soon to be leaving town registrar.

When I use the word sex, I suspect I mean something quite different from what you're saying -- probably quite different from what most people would say. I've studied all over the world with people of far varied sexual experiences and persuasions. When you ask if students have that same kind of awareness, I doubt if they do. But they're going to have more of it when they're finished here.

**Do you see fun raising as a large part of your duties?**

Horrendous! Oh, indeed, no question about it. It's going to be a big one.

**Do you think that you can build up your endowment as well as Dr. Swineson built up his?**

The plan calls for constant growth. I don't think I'm going to do it alone--we'll all have to pull together.

**What was it like for you when you were an undergraduate?**

I loved undergraduate life. I had a lot of fun, and I guess for me there is the realization that in those intense four years how much things

## Sigma Hate-us faculty auction raises \$2.50 for African Pigmie

The annual Sigma Hate-us faculty auction raised a record \$2.50 for the African Pigmie program last Thursday.

Spaniel Overbearing was top dog at the event--going for 19 cents. Heaven Christ, who out bit Stich Fisdor for Overbearing commented, "It's going to be hard to teach an old dog new tricks, but I'm glad I got him. I wouldn't have gone over 20 cents though, even 19 cents is too much--it just goes to show you the effect inflation can have on our everyday lives."

Bony Stupiano was ano-

"This job can give you a headache," stated Relic. He explained that the arrow helps to relieve pressures that can mount.

ther big bidder at the event, dropping a plump sum--17 cents--for M.J.J. Width. "The bidding was a hairy experience; there were a large number of bidders," commented Stupiano.

Ronald O. Lapp-Dog went to John C. Horris for 10 cents. "I really couldn't afford it," commented Hor-

ris, "but I'm planning on taking over Siberia after I'm done with Alma College. He should come in handy."

Rumored religion major, Jane Pothead, snapped up Joseph Bowser. "He's going to take some training," stated Pothead. "He still goes on my papers."

[Above] Dr. Spaniel Overbearing was top dog in bidding getting 19 cents for the African Pigmie program. [Right] Dr. Bowser was another top dog. He went to Jane Pothead.

# editorial comment

## The saga continues....

Too often, editorial columns in newspapers are critical. Rarely do they contain praise--praise for the individual who comes over mountable odds and makes it.

Such a case is Maria Juana Italerini. The former Maria Juana Beurito who, as you may recall, was deported from this country last year, has made a triumphant return to society as a new woman. Coming over such obstacles as her body and face, Italerini has recently opened Juana Spaghetti and Italerini Cheap Fast Food Restaraunt located adjacent to Don's bar in Ithaca. "My a motto is a 'no a beuritos, italerini'," commented Italerini.

It's been a long haul to say the least. This hunk of a woman has come over the deep humiliation of having the rights to her secret recipe "Cheese Fondue Glue" taken away from her after it was discovered that she was smuggled into the country via a celery truck two years ago. Not one to be bitter, Itallerini (after much coaxing from this reporter) briefly described the previously untold story of the glue and her employment at Soggy Foods. "I a accidentally a mixed up a some a dee ingredients used by Soggy Foods to feed those lovely students at a dee college. All ofa sudden, my hand was a stuck to dee a dishawasher. Even Paul Horse couldn't a getta me a free a. Notta wanting me to standa around a wasting time a, Horse a cutta offa my hand a and told a me to getta back to worka. After thata, they wanted my a recipe. They flogged me a witha soggy noodles and made a me a eata there three times a day a. But I wouldn't tella them a--I have a my pride you know."

It's a story that hits you in the gut and dampens your tear ducts. But it's true--and should serve as an inspiration to us all.

### Iranian perspective

## You too can be a hostage

By Phil A. Sheo  
Staph Writer

After losing our 52 hostages less than two months ago, we, the Iranian people, are looking for more Americans to hold for a year or two.

Now listen well, this is an offer you will be unable to refuse. It is just the vacation for the ultimate bondage experience. First of all, hostages will be treated to exquisite accomodations in the Old American Embassy in sunny Tehran. Once there, captives will be able not only to watch films and tape presentations about the captivity of the original 52 guests, but will actually experience the conditions that the original 52 stayed in.

From the embassy, you and your fellow hostages will be split into groups and travel blindfolded to various "surprise" locations.

The hot vacation spots will offer basement rooms, raw chicken torture and--who knows--you might even get to play Russian Roulette. In addition, you can play the new helicopter video game called "Aborted Rescue Attempt."

The best part of this trip is the tour guides. Your en-

joyment will be insured by over 10,000 screaming, radical Iranian students. They will interrogate you, beat you and occasionally put you in solitary confinement. What more could a real bondage freak ask for?

Another great aspect of this vacation opportunity is that it could last forever. We guarantee that negotiations for your release will not begin until you have enjoyed our hospitality for at least six months and you may not get back to the drudgery of U.S. life for a year or two. If all goes well, you might be in Iran until another president takes office in your country. In addition, our government only negotiates on non-holy days which occur four days out of the year so your stay may be even longer.

To take advantage of this unique opportunity, send \$9.95 before midnight tonight to: "I wanna Be a Hostage," Old U.S. Embassy, Tehran, Iran.

It is fun for the whole family. Bring the kids and Grandma too. They'll love it. Give your best friend a ticket. Our vacation makes a great Christmas gift.

As one hostage put it, "This was the most unforgettable experience of my life."

## Letters

### Potty policy a waste

Dear Editor,

Potty is going to hit the fan. We're so pissed off we could defecate. But no--the recently implemented Alma College Potty Policy has made it virtually impossible for us to Potty where we want. This policy prohibits potty in almost every fart of our lives. We're big pottiers as evidenced by our recent College Bowel victory. How are we supposed to have our potty party--one of our annual flush functions?

It's a pity the potty policy had to come out at a time when this fraternity is making movements to wipe the slate clean. This time Alma College has gone too far and plunged into one of the basic functions of Alma College Students.

Sincerely,

The Brothers of Zeta Piglet

## Your Burn

### Advent PSORIASIS

By Kilbasi Obituary

PSORIASIS is the name of the new society about to make its entrance into the scalps of Alma College students, as a member of the family of diseases which seek to develop the latent dry skin of Alma students via poor personal hygiene. PSORIASIS is an acronym for the society of Problem Skin Orders and Rashes in the Area of the Scalp and Inner Snout. The society's name represents the intents of the society. The idea for the society was spurred by the fact that many students here at Alma College possess staggering degrees of scalp disease which is lying dormant due to the use of Tegrin shampoo.

But in the absence of any institutionalized means for tapping and developing such vast dandruff potential, dandruff was prone to gradual recession into ultimate oblivion. Hence, outbreak PSORIASIS.

Basically, PSORIASIS is a medium, the functions of which are to: 1) allow the scalp problems of our fellow students (and possibly those of the faculty and staff) to be critically analyzed and reviewed by other interested students and faculty in a well structured and disease conducive fashion, coming as close to the perfect scalp disease as we can manage; 2) encourage students who might want to reveal their skin diseases which are lying dormant on the tops of their heads, by exposing them to the rare skin disorders of those who are bold enough to present their scalp for critical review; 3) initiate constructive research into the most effective ways of growing mold, slime and harmful bacteria on one's body; 4) to initiate constructive campaigns on campus for the enlightenment of students of the pleasantries of diseased hair areas including the head, armpit and genital areas. Work will also be conducted on the proper ways to begin skin diseases in non-hairy areas of the body.

The society will convene at the beginning of each term to decide on which skin problem will be of interest to the campus community in the forth coming term and then select an individual with a successful growth record in this area to be invited to a rash exhibition on campus. At these forums, students will be able to share their diseases with an experienced dandruff producer. Prior to the symposium, society members will participate in workshops to increase bacteria growth and communicate diseases between one another. The diseases will be communicated via skin contact.

Membership in the society is somewhat involuntary. A student may have no other choice but to join after catching a rare virus in the shower in which a member has recently washed himself (in violation of the PSORIASIS code of ethics). In other words, if a student can contact a good growthy skin problem, he or she can join. It is our hope that in time it will become a part and parcel of this institution.

The hard core group of 20 members is limited in order to allow maximum interaction in making good skin contact and for initiating new scalp diseases which, until now, have gone almost unnoticed. General membership, however, is actually governed by participation. Any person with an exceptional growth capability is welcome to come to the disease sharing sessions.

There are an abundance of activities planned for the society. One activity includes picketing the Head and Shoulders manufacturing plant and all stores which sell anti-dandruff products. We also plan on initiating a petition to forbid the Snot Shop from selling any shampoo or soap on campus as this goes against the good intentions of the society.

# Bowling for Dollard promises excitement for all

Paper back editions of "How to Bind a Book," "The Library as Your Friend" and the 1971 Farmer's Almanac are just a smattering of, the exciting

prizes available to the lucky winners of Alma College's 1981 Bowling for Dollard contest. Dollard, a notorious tightwad, explained the need for

the contest, "The library needs money, we'd like to purchase the Dead Sea Scrolls and back issues of the National Enquirer," he stated. The entry fee for the contest is \$50 per person. "Sure the entry fee is a little high," commented Dollard. "But the prizes are worthwhile. I've read 'The Library

as Your Friend' five times. It's the type of book you can get cozy with on a chilly winter evening." Each contestant is granted two attempts to knock a bowling pin down with Dollard's head attached to it. "It's really easy; he's got a big head," commented Ruth Braille, referee for the contest.

Interested persons should write to Bowling for Dollard, Monteith Library, Oversized Section, Alma College, Alma Michigan for an entry blank. Hatred for Dollard, the library or boring things in general is not a prerequisite for entry. Friends and family of the Oversized Section are not eligible.

Here is the target. Dollard is a happy man and even enjoys the hate that many have for him. This may bring on a new fad, see how long it takes for you to hit this pin.

## Geek spotlight

### Delta Ramma Sow

We, the boys of Delta Ramma Sow, have been on our knees not to have Dirty Socks release the story of our probationary incident and make us look like donkey bottoms. Well she did anyway and we admit we are donkey bottoms. Now we feel the untold story should be told.

On the morning of February 21, 1981, our pledge class was crawling back to the house after an evening of synthetic fun. Unknown to

them, they were in the yard of the now defunct Velsicol Chemical Company, on their hands and knees snorting PBB remains. A squadron of "lavender" men surrounded our pledges and proceeded to "have their way with them."

We now hope the story has been cleared up and that Ms. Socks can get things straight.

### Gamma Pigma Pigma

Congratulations to all the recent winners of our Puke for Piglet Puke-a-thon! You guys really puked your guts out!!!!!! We raised a whopping \$3.18 for the Piglet Foundation. Also, thanks to the maintenance department for providing all the buckets.

### IK

The sisters of IK are thoroughly excited about their up and coming x-rated P.J. party. We consider ourselves one big happy family. Sisters, remember to bring your sailing caps because there's going to be a lot of motion in the ocean. Also, remember there are no guests allowed. We are very proud to remind the Alma College Community that IN-CEST IS BEST. Our theme song for the week is: She's not heavy, she's my sister!!!!

### Geke

Congratulations to our newly selected, hand picked little sisters. Their seduction into the order of Diana last Sunday was truly an exciting experience for all involved.

### Eata-Thi

The brotherhood of Eata-Thi would like to take this opportunity to list some names: Mike Bunyan, Crian Yell, Heve Hand-in-steer, Bark Gallows, Al Bedwards, Cob Neck, Tom Bagel, Jon R.E. Volton, Gay Batcha! The brotherhood would also like to take this opportunity to use some exclamation marks!!!!!!!!!!!! AND CAPITAL LETTERS TOO!

### Sigma Hate-Us

The annual Sigma Hate-us faculty auction was a success. Over 50 faculty members were auctioned off to the highest bidders.

### ZETA PIGLET

The brotherhood of ZETA PIGLET is proud to announce our victory at the recent college bowel tournament!!!!!! We would also like to congratulate Bill Mealy (25) of the Delta Ramma Sow fraternity on some excellent movements made during the tourney. He would have made a great PIG!!! Congratulations also to OUR (50) NEW PLEDGES!!!!!! These GUYS are all eager as little beavers to prove they are true PIGS and we are sure they will all come (75)

### Alpha Date-Us

Congratulations to Barrel Licker on her recent date. With this momentous occasion, Barrel takes the lead over the other Date-Us sisters--this is her second (25) date in three years!!!! Our technique of following guys around and calling them at all hours of the night seems to be working.

The sisters of Alpha Date-Us would like to congratulate their brother piglets on their recent college bowel tournament victory. True to form, they came from behind (75)

### Alpha Mate-a-Sow

Our annual girl-bid dance, Wanna-Lei, was a bursting success!!!!!! Five of our members even took their curlers out for the occasion!! Sorry we devoured all of the food before anyone came.

## Scummy Skin in just 4 Days!

Is your face clean and clear? Do you have a peaches and cream complexion? Let your social life suffer no more. We can promise an amazing improvement, if not a completely scarred complexion.

It sounds like a modern chemical miracle. The treatments, which are being introduced to the Michigan area, have fantastic results in producing acne and other related skin diseases by building up additional layers of skin so pimples can breed.

Each treatment involves nightly applications of oil ointment, a restricted diet of french fries and chocolate, and treatments with a recently patented chemical substance which is conducive to the growth of cysts and blackheads.

Before

Harriet Comely, our first client used our mildest treatment, she said the first 10 minutes of the treatment caused a slight stinging.

"But after that there wasn't any stinging. My skin started erupting slightly on the 2nd day. But it wasn't

After

really noticeable. I didn't wear any makeup except eye makeup during the treatment and my skin looked kind of bumpy," she said. "By the 4th day my skin had totally broken out in blemishes."

The most radical change

was caused in our second "client" Edna Snert, a student.

Because Edna's problem was more severe, she had the strongest treatment. Few would argue that the change was remarkable.

"At first," she said, her skin felt watery, "and it was cold." It didn't erupt much, but when it did, Edna's face was covered with perfect purple pimples.

The treatments were developed 40 years ago by an American chemist, who sold them by mail.

They've never been on the market where you could just go in and buy them off the shelf. But we're able to distribute them now.

Stop in and start your scummy skin treatment today.

# The Flip Side

## Sinatra goes punk

By Pick Booger  
Staph Writer

Frank Sinatra has always kept one step ahead of his fans but he's never surprised them much, either, so it's safe to say many will be shocked by his latest move. His new album, *My Best Friend's Girl*, seems like a direct contradiction of his recent bids for respectability by listing Ronald Reagan as a personal reference. However, this steamy collection of punk and new wave music carries a ring of conviction that indicates that Frank may have something a little different than owning a Las Vegas casino on his mind.

For one thing, Sinatra has assembled some of the most notorious American new wavers to help him put the record together. The Monkees (you didn't know they were punk pioneers? Shame on you!) serve as the basic band, but such well-known figures as Brian Eno, Bun E. Carlos, Tony Retina, Devo and the Los Angeles Philharmonic all contribute heavily. The use of string quartets to double the stabbing guitar riffs is a nice touch, as is the fact that most of the drummers decide to accent unexpected beats in the middle of the record's softer portions. Retina's drummer, the infamous M.I. Wright, excels at this.

The song selection is another plus. Aside from the title tune, Sinatra has come up with a fascinating cross-section of songs, including "Whip it," "Life During Wartime," Elvis Costello's "Two Little Hitlers" (done as a duet with Deborah Harry), and a new tune by the Knack, "Nobody Pays Attention If We Don't Talk Dirty on AM Radio." His rich baritone voice can handle this music with ease, giving it subtle shadings its creators probably never saw. Still, it's not all smooth sailing; Sinatra has real trouble putting "Rock Lobster" and Gary Numan's "Are 'Friends' Electric" across, but this is possibly part of his strategy, as those two tunes make the Clash's "Death or Glory" that much more powerful.

The real highlight of this album is Sinatra's recasting of "My Way," a song he made famous; the Sid Vicious version of it is reputedly what inspired Frank's punk moves. Here, he throws caution to the winds, screaming psychopathically without regard for the back-up band's ears. "My Way" winds up the record in a way that epitomizes punk's sociopolitical connections with both avant-garde art and subway graffiti. Indeed, this song, if released as a single, might singlehandedly galvanize discontented youth to action worldwide.

And why not? Frank Sinatra proves on *My Best Friend's Girl* that you're never too old to come up with your own version of young, loud and snotty. If ever a master musician made a record that could transform the world, this is it. Of course, what the world would be transformed into is another question.

## Revolution moves Horris to tears

By Car L. Marx  
Staph Revolutionary

Student Council President John C. Horris declared the Revolution "beautiful, marvelous and successful" in overthrowing the past regime. "Comrades, we have defeated the bloodsucking bourgeoisie, they have drowned in their own syphillitic blood, and hung by their wretched necks with aid of the music departments piano wire." Horris went on to declare the revolution only partially complete. He de-

manded total dictatorial powers and the formation of the following committees: Rape and Pillage, Booze (specifically, CC), Work Ethic Extinction and Communal Living.

Sexatary Sally Naller reminded the Sniper Committee that there are many tools of repression still crawling around campus. "We only have a 40 percent body count at this time. Search and secure are your orders. More bodies are needed! The attendance at the public floggings activities has been

low, partially because you are not doing your assigned task," she said.

Vice president Mealy stated his sentiments on the revolution with typical intellectual brilliance attached only to him, "Um...um. Well whatever...."

Treasurer McLay was absent. It is believed that she ran off with an ACDC employee to find a medical school.

At the conclusion of the meeting, Horris declared the day, Day 1 of the new revolutionary calender and with tears streaming down his face, his voice cried out, "You don't know what this means to me comrades. I have wanted to lynch the bloodsuckers ever since the limosine dropped me off here three and one half years ago. I have failed all of my business courses just to further the cause. From time to time there are created men...in whose hands the destinies of their colleges are placed. I am one of those men. From this day forward, salute me, never shake my hand, for I am a great man."

## Gelstoned mystery

From page 1

fire. One R.A. even believes he heard someone yell "Fire" which, if it could be proven, would strengthen the case.

Residents on both sides of the hall were not aware of the blaze until their television sets began to melt and the telephone cords began dripping down the walls.

Acting like any composed adult would act when met face to face with danger, some residents began running around screaming, jumping out of windows, while other residents began running around screaming, looting their neighbors' rooms.

The only casualties reported were a broken leg, two sprained ankles, a wrenched back, a severed finger nail and a bloody nose. But, all of these casualties are unrelated to this story about the blaze, so forget you ever read this part.

The Alma Fire Department would have liked to thank the students who helped put the blaze under control, but there were no students who helped put the blaze under control.

"I know the student's, specifically the R.A.'s, intentions to be helpful were good," Maniac said, "but spraying gasoline on the already towering inferno was being a little too helpful."

Residents of the fourth floor have been temporarily housed on the lawn of Gelstoned's courtyard in pup tents. The Student Affairs Office has asked that if any student has an extra blanket or hot pot they would like to donate to the fire-residents, it would be greatly appreciated.

Hours after the fire in Gelstoned Hall started members of the Hall were seen exiting from this fire escape.

## Public Announcements

ACDC Retreat scheduled for May 1-3. Focus will be on "Living in the real World." All Student Underdevelopment staff are expected to attend (Except for you Ginney--NO GALS ALLOWED). R.S.V.P. with S.I.G.I. by April 30.

Yours in Career Preparation,  
Van the Placement Man

\*\*\*\*\*

Recent Administrative Achievements--

The Kelloggs Foundation has recently dedicated one of their new products in honor of our own Guile J. Graham (Better known in the Alma College Community as "Golden Grahams.") Congratulations!

\*\*\*\*\*

Student Affairs now offers a new and improved Educational Tool which will be used to better inform students of surrounding cultures. Just by dialing 7333 (and a small fee) you will become instantly "Culturally Aware." These cultural songs will change daily. Interested Parties should call Dean Dial-a-Chant by midnight tonight! And if you do he will call you a "damn obscene phone caller."

Handy Dial-a-Chant let's it all hang out as he enjoys an afternoon at home. Surrounding him are his servants, paid by Alma College. Dial-a-Chant's outfit was tailor made by Gloria Vanderbuilt.

# Relic enjoying new job

From page 3

grew for me -- constantly growing bigger and bigger and bigger. I came to get excited at new experiences.

Were you adequately prepared for this job during the selection process?

Have I been surprised by a few things? Yes. But I think that with the way I was prepared for this job by the Bored of Trustees and the committed that worked so hard on it with me, I can't say that I've really been shocked by anything.

What do you do for relaxation?

This may sound funny, but I enjoy killing people. It's one of the few things in my life where I can see immediate results. Other things, like, um, well...other things take longer. Sometimes things don't come around at all.

President Relic is sporting his new set of bunny ears as he explains how involved his job is.

# Alma College Potty Policy

From page 1

## Potty Policy of Alma College

Potty may be sold, possessed or deposited by members of the Alma College Community who are of legal status to sell, possess or deposit such potty as defined by the laws of the State of Michigan. In college housing facilities students eligible to possess or consume potty are to do so only within the privacy of their rooms. No potty is to be possessed or deposited at any other time or place on campus or its buildings unless specifically authorized by the provisions of this policy.

All of the provisions, practices and understandings outlined below shall be adhered to as a part of the "Alma College Potty Policy."

1. Depositing potty "in the privacy of (a student's) room" is interpreted to mean only within the room and with the door to the room closed, and provided that there are no more than eight persons in a room at one time.

2. Potty requiring the use of a "tap system" is not encouraged on the campus or in any of its facilities. Any use of such a container must be in consultation with, and approval of, a designated officer of the Student Affairs staff.

3. Occupants of small housing units may, in consultation with their total active membership, where applicable, decide by a majority vote of all house residents, whether potty shall be deposited in a common social area or areas of the small housing unit.

4. Designated common areas in living units where potty may be permitted must be arranged with the Student Affairs staff each new school term, and it is assumed that the officials of that living unit will be responsible for seeing that the potty policy of Alma College is upheld within those designated areas.

5. Potty is not to be deposited on porches, roofs, decks or other exterior structures of living units, nor on their lawns or grounds.

6. At no time shall the number of occupants at any gathering exceed the safe occupancy limit for the room or rooms used. This occupancy limit is to be defined by the Student Affairs Office in consultation with appropriate city officials.

The following provisions are provided within the potty policy for events which are non-licensed and for those which are licensed.

## Non-licensed events

1. Events for the purpose of this policy are defined as occurrences where ten or more non-members of an organization/living unit are present.

2. Requests for such events will be made in writing by a sponsoring group(s) to the Student Affairs Office at least one week prior to the proposed date of the event. Requests for events which are to take place in any residence hall should be signed by the Head Resident or Resident Advisor of the facility. Requests for events which are to take place in small housing units or a fraternity/sorority must be signed by the house manager or the advisor as applicable.

3. For each event, the sponsoring group shall submit to the Student Affairs Office a list of members/residents who shall be responsible and legally liable for the observance of potty policy provisions.

4. All persons who are to attend the event must be of legal status to possess potty deposits, unless satisfactory procedures have been designed to prohibit distribution of potty to those who are not of legal status to deposit.

5. All events shall provide food and non-potty deposits. It is highly recommended that events where potty deposits are being present have planned social activities.

6. For non-licensed events, except in the case of "B.Y.O." events, no admission will be charged for such events and no beverages (soda, pop, potty, juices, etc.) or food stuffs may be sold during the event. In no case shall potty deposits be sold.

7. Exceptions to the provisions of this policy are available to groups or organizations for particular events if approved by the Student Affairs Office.
